

GRAF ZEPPELIN LEAPS BACK TO GERMANY

CLEVELAND DISASTER DEATHLIST MOUNTS TO 124 MOTOR TROUBLE TURNS DIRIGIBLE FROM SEA TRIP

Overheating Of X-Ray Stores Caused Disaster

Explosions in Cleveland Hospital Resulted From High Temperature Brought About by Leaking Steam Pipe, Say Investigators; Fire Door Negligently Left Open.

Cleveland, May 16.—The explosions that ripped through the Cleveland Clinic Hospital yesterday and generated gas fumes that up till mid-afternoon to-day had killed 124 persons was caused by spontaneous combustion that ignited celluloid X-ray plates in a sub-basement storeroom.

This was the official report of Deputy Fire Warden Max Gross and P. T. Ferri to their superior, Chief Warden Thomas Connell, this afternoon.

The fire door leading from the room where the celluloid X-ray plates were stored and where the first explosion occurred, had been left open. If this door had been closed the disaster might have been averted.

After an investigation they said: "The fire door leading to the room where the celluloid X-ray plates were stored and where the first explosion occurred, had been left open. If this door had been closed the disaster might have been averted."

FOUNDER LOSES LIFE
Toronto, May 16.—Word was received here to-day that Dr. John Phillips, internationally known physician and native of Welland, Ont., died last night from the effects of the disaster in the Cleveland Clinic Hospital yesterday.

Dr. Phillips, honor graduate of the University of Toronto in 1902 and one of the founders of the Cleveland institution, was reported last night to have been injured by fire and to be suffering from acute gas effects.

Opinions on Gases in Big Disaster Differ
Cleveland, May 16.—Physicians of the Cleveland Clinic Hospital, rocked yesterday by two explosions of gas and swept by fire which killed more than 123 persons, were unable to agree to-day with authorities and other doctors interested in the calamity upon the name of the poisonous fumes which worked their way through the building.

Bromine, phosgene and nitrous gases all were given as causes of the tragedy. Professor Walter Straub, twice winner of the Nobel Prize for medical achievement, declared he believed nitrous gases caused by combustion had done the havoc. He was supported by Dr. William E. Lower, director of the clinic. Dr. M. E. Harn of Mount Sinai Hospital said examination of bodies gave traces of phosgene gas and City Health Commissioner H. L. Lockwood leaned to a theory of bromine gas generated in burning X-ray films which caused the explosion.

Coroner A. J. Pearce added the possibility of hydrocyanic acid gas. Ninety-five per cent of the victims of the explosion and fire died of gas poisoning, Coroner A. J. Pearce said.

TESTS MADE
Cleveland, Ohio, May 15.—Coroner A. J. Pearce to-day announced blood tests of victims of the Cleveland Clinic Hospital explosions showed deaths were caused by inhalation of hydrocyanic gas and bromine gas, both of which were present in large quantities.

GOLD STORED IN CANADA TOTALS OVER \$118,000,000
Ottawa, May 16.—Federal Treasury has \$78,231,160 in gold in the central gold reserves, while according to last bank statement the banks of Canada hold in their own vaults in Canada an additional \$40,000,000 in gold. This was the reply given by Hon. J. A. Robb, Minister of Finance, to a series of questions asked in the House of Commons this afternoon by J. S. Woodsworth, Winnipeg Labor member.

OXYGEN USED BUT VICTIMS OF GAS SUCCUMB

Those Caught in Cleveland Hospital Suffered as Did Men in World War

GIRL GAVE LIFE TO SAVE OTHERS

Death of Telephone Operator of Cleveland Hospital Is Mourned

Cleveland, May 16.—Among the bravest heroines of the Cleveland Clinic Hospital disaster yesterday, was Gladys Gibson, a telephone operator, at the clinic, who deliberately faced death while sending out alarms and who died soon after in a hospital.

The brave telephone girl saw death approaching in the form of a ghastly yellow poison gas, but she stayed at her exchange board, making heroic efforts to warn everyone in the building of the danger and to summon police, firemen and ambulances.

Finally the heroine girl collapsed. Someone carried her out, and soon she died in a hospital.

"Greater love hath no man," said a priest with tears in his eyes as he saw Gladys die. "She was a brave and noble girl."

PRETTY FAIR-HAIRED GIRL IS VICTORIA'S MAY QUEEN

Clare Ashdown Green Selected From Among First-year High School Students to Preside Over May 24 Festivities in City; Charming and Unassuming, She is a Native Daughter of Vancouver Island; Will Be Crowned at Pageant on Night of May 23.

Victoria's May Queen for 1929 is a charming blond-haired High School girl of thirteen years of age, with stately manner and mien befitting her regal state.

She is Miss Clare Ashdown Green, who was yesterday selected from the first year students of the school to preside over the May 24 festivities. Clare is the daughter of Mrs. G. W. Green, 624 Michigan Street.

Despite her excitement and the flurry which followed the selection of the Queen, Clare was modest in her acceptance of the honor bestowed upon her.

"I feel it a great privilege and honor to have been chosen Queen when there were so many other girls who might have filled the position quite as well," she said.

Unassuming in her manner and charming in disposition, Clare is a great favorite with the students who are her subjects.

ARREST FOLLOWS ATTACK ON WATER SUPPLY OF TOWN

Elizabethton, Tenn., May 16.—An explosion of dynamite early to-day severed the water main serving Elizabethton and the American Glanville Rayon plants, and shortly afterward George Crow, identified by Sheriff J. M. Moreland as the man who had warned him last night that the main would be dynamited, was arrested.

ROBB'S PLAN IS APPROVED

Commons Rejects Bennett's Amendment on Stock Sales Tax

Ottawa, May 16.—The House of Commons late to-day rejected by 96 to 58 the amendment of Hon. R. B. Bennett, Conservative leader, in connection with the proposed tax on sales and transfers of shares of stock.

The amendment would have referred the tax resolution back to have the tax on shares eliminated and leave the levy on such transactions as they are at present.

Ottawa, May 16.—Hon. R. B. Bennett, Conservative leader, moved in the House of Commons this afternoon that the provision of the budget for taxation of transfers of shares of stock should be struck out.

Mr. Bennett's amendment came following the motion of Hon. J. A. Robb, Minister of Finance, that the House of Commons resolve itself into committee of ways and means in order to give second reading to budget resolutions.

Mr. Bennett's amendment was a substantial surplus, the continuation and increase of this tax was unjust, inequitable and unfair. The Dominion government intended to levy the tax on companies and this tax should be left wholly available to the provinces.

CHURCH LEADER FOR B.C. NAMED

Rev. A. K. McMinn, Kelowna, New President of United Church Conference

Vancouver, May 16.—Rev. A. K. McMinn, of Kelowna, was elected president of the United Church conference in Vancouver this morning. On the first ballot Mr. McMinn received the sufficient votes for election, but Rev. C. A. Williams, who came second on the ballot, requested that his name be placed on the list of candidates.

Other officers elected were: Rev. D. M. Perley, of New Westminster, secretary; Rev. A. D. Archibald, of Lulu Island, assistant secretary; Rev. W. P. Bunt, of Mission City, treasurer.

THE report of the religious education committee was under discussion at the session when Rev. C. A. Myers, D.D., of Toronto, was invited to speak on the training of young people for leadership.

Dr. Myers made a strong plea for teacher-training classes in every church, and urged that the ministers should assist in every way possible.

Winnipeg, May 16.—Among the nearly 100 persons who perished in the explosion and fire in the Cleveland Clinic Hospital yesterday was Dr. Harry Anderson, thirty-one, a young graduate of the University of Manitoba and son of Mr. and Mrs. Augustus Anderson of Winnipeg. He was included in the list of dead whose identity had been established, according to a message received by his parents.

NEW HOTEL TO FOLLOW REALTY DEAL

Old Irving Home, Overlooking Parliament Square, Acquired

Sale of the old Capt. John Irving property at the corner of Menzies and Michigan Streets, overlooking Parliament Square, was confirmed to-day by Fred Landsberg.

Construction of an exclusive, high-class apartment hotel is planned for the property, it was announced. Identity of the purchasers of the property was withheld to-day at their special request, pending completion of plans for development of the property on an ambitious scale.

Investigation by experts into business conditions in Victoria has indicated that the time is now ripe for the construction of a high-class apartment hotel here, at this point, which is close to the centre of the city and to the docks. It was explained.

The present rate of growth, population of Victoria will pass the 100,000 mark in from two to five years, it was also explained.

The property, which has been acquired, has a frontage of 233 feet on Menzies Street, 284 on Michigan and a depth on its southern side of 344 feet.

The vendor was H. P. Bagley of Foul Bay Road.

NEW SMUGGLERS' PENALTIES TO BE DISCUSSED

U.S. Will Suggest to Canada Rum-running Be Made Extraditable

Ottawa, May 16.—A definite offer by the Government of Canada to permit United States officials to prosecute liquor smugglers on the Canadian side of the border, in order that they might transmit to the United States information with respect to liquor shipments from Canada, was made on March 15 last. It was not accepted.

Mr. Allen, well-known authority on India, who will speak before the Canadian Club to-night on "Problems of British Administration in India," reached the city yesterday afternoon from London.

Mr. Allen has been addressing Canadian Clubs during his tour across Canada. He has had thirty years' experience in the Indian Civil Service, and is particularly well versed in Indian affairs.

Since their arrival in the city Mr. and Mrs. Allen have taken full advantage of checking over the beauty spots, and this forenoon was spent in wandering over the gardens at Benvenuto, Mr. and Mrs. R. P. Butchart's show place at Brentwood.

They returned greatly impressed with the beauty of the gardens.

IS DEFEATED ON ATLANTIC AIRSHIP FLIGHT ATTEMPT

DR. HUGO ECKENER, commander of the German dirigible Graf Zeppelin.

AUTHORITY ON INDIA HERE

Basil C. Allen Will Speak Before Canadian Club To-night

Mass of India's Population Not Concerned About Self-determination

When the Graf Zeppelin left Friedrichshafen there were aboard forty of a crew, eighteen passengers and a female gorilla, "Bibi." The only woman passenger was Mrs. Henry Pierce, wife of a New York utility broker, who started the trip despite urgent pleadings of her husband and mother.

Among the men was Captain Sir George Hubert Wilkins, Arctic and Antarctic explorer.

START OF VOYAGE
The ship was trundled from its hangar at 5:45 a.m. and at the pilot's command was released for its long voyage at 5:57 a.m. (5:57 last night, Victoria time). It rose slowly in an intermittent drizzle while spectators cheered. It circled the field once and disappeared in ten minutes in the direction of Lake Constance and Basle, Switzerland.

The ship carried 4,500 pounds of freight in addition to its passengers, this including considerable air mail, a grand piano, a painting and other things. In addition a great supply of food and fresh water were placed aboard for a much longer period than that expected to be used for the flight.

GOVERNMENT AXE BEHEADS AGENT

Political Activity Given as Reason For Retirement of Rupert Officer

Prince Rupert, May 16.—Hon. W. C. Shelly, Minister of Finance of British Columbia, here on a visit of inspection through the northern territory, announced the retirement of Norman Watt, Government agent here, on the grounds of political activity. Watt was appointed here several years ago.

Mr. Shelly, who left last night for Anxox, accompanied by E. D. Johnson, Deputy Finance Minister, intimated Watt probably would be succeeded by Charles L. Monroe, agent at Athol.

VANCOUVER TO VOTE AGAIN ON BRIDGE SCHEME

Mayor Says By-law Defeated Yesterday Will Be Submitted at Election

Vancouver, May 16.—Although six of the twenty by-laws submitted to the ratepayers of Vancouver yesterday were rejected, only two failed to obtain a clear majority of the total votes cast, but were defeated because they were not given the necessary three-fifths of the vote.

CHINESE WILL PRESENT RARE SPECTACLE HERE

The "Dance of the Lions" Attended By Costumed Swordsmen Will Feature Parade

The "Dance of the Lions," a custom with its roots in the antiquity of ancient Chinese capitals of might and power, will be seen in Victoria for the first time during the Maytime holiday period, it was announced by Alderman W. T. Strath, chairman of the general committees of the Junior Chamber of Commerce this morning.

Accompanied by twelve swordsmen in the historic costume appropriate to the ceremony and armed with great curved scimitars, the lions will march in the international section of the street parade as part of a dramatic entry made by the Chee Kong Tong, the Chinese Freemason society.

After the parade comes to a halt at Beacon Hill Park an enclosure will be formed, and into this corral will stalk the lion and the lion's cub in search of food and drink. Then the dance will begin. Bedecked with the heavy forms worn by the lions will each be carried by two men, who will be relieved at short intervals from a band of athletic youths of the Chee Kong Tong.

Then will follow the fantastic and rare dance of the attendant swordsmen, in costumes copied from the aged history of a civilization thousands of years old. Weaving in and out, the swordsmen will dance with their flashing scimitars. Chinese music will follow the characters in the parade and play for the dance.

Once they were assured that their presence would be made welcome, and that they would be met with courtesy, the Chinese entered into the preparation of this elaborate feature with a will. As the lions and swordsmen, the Chinese music will follow the characters in the parade and play for the dance.

Once they were assured that their presence would be made welcome, and that they would be met with courtesy, the Chinese entered into the preparation of this elaborate feature with a will. As the lions and swordsmen, the Chinese music will follow the characters in the parade and play for the dance.

Political Activity Given as Reason For Retirement of Rupert Officer

Prince Rupert, May 16.—Hon. W. C. Shelly, Minister of Finance of British Columbia, here on a visit of inspection through the northern territory, announced the retirement of Norman Watt, Government agent here, on the grounds of political activity. Watt was appointed here several years ago.

Mr. Shelly, who left last night for Anxox, accompanied by E. D. Johnson, Deputy Finance Minister, intimated Watt probably would be succeeded by Charles L. Monroe, agent at Athol.

Vancouver Grain Exports Growing

Vancouver, May 16.—Eighty-nine million bushels of grain are definitely in sight for export from Vancouver this season, according to figures prepared by the Vancouver Merchants' Exchange. Up to 8 a.m. yesterday the quantity of grain shipped this year was 85,865,621 bushels. Bookings for United Kingdom, European Continent, Oriental and other foreign markets for the period between May 15 and the end of July total 3,243,762 bushels. Other bookings will develop before the end of the season and an export total of 94,000,000 bushels is expected, and will probably be exceeded.

Grain in store in the elevators yesterday was 7,001,958 bushels and there were 938,200 bushels en route on railways in British Columbia.

PARLIAMENT ASKED TO APPROVE NEW CANADA-U.S. SALMON TREATY

Ottawa, May 16.—Parliament will shortly be asked for its approval of the Canada-United States Sockeye Salmon Fisheries Treaty. The convention was signed at Washington on March 27 last and is for "the protection, preservation and extension of the sockeye salmon fisheries in the Fraser River system" of British Columbia.

NEW C.N.R. LOAN PLAN APPROVED

Ottawa, May 16.—Shortly before the Commons adjourned at 6 p.m. yesterday it put its final touch to the approval of railway measures by giving third reading to the bill which provides for the refunding of maturing financial obligations of the Canadian National Railway. This involves authorization of a loan amounting to \$18,000,000.

JOINT OPERATION

A debate on the proposal for the joint acquisition of the Northern Alberta railways arose on the motion of Hon. C. A. Dunning, Minister of Railways, for the House to resolve itself into committee for consideration of the necessary bill.

D. M. Kennedy, U.F.A., Peace River, said there was a strong feeling in the Peace River district that the C.P.R. should get preference in the purchase of these railways. In expressing his personal opinion Mr. Kennedy said that from 200 to 300 miles of railway construction would effect the programme, which the C.P.R. could not undertake. Mr. Kennedy felt that if the C.N.R. acquired the Alberta railways that system was more likely to work out the question of a British Columbia coast outlet than the C.P.R.

VIEW DIFFER

Mr. Dunning commented on the difference of opinion among the friends of the Peace River district in the House with respect to an outlet on the Pacific Coast. Mr. Dunning said that in a speech Tuesday night he had recommended one course, with a terminal at Vancouver, whereas Mr. Kennedy favored an outlet at Prince Rupert. Other members had other views as to an outlet.

"Carry On!"
MAY 27

Two Applications For Campbell River Power To Be Heard

Provincial Water Board to Consider Cases of B.C. Power Corporation and International Utilities Corporation; Experts Swear That Raising of Level of Lakes Will Result in Heavy Losses to Timber Companies.

With a bewildering conflict of interests before it, the Provincial Water Board decided yesterday afternoon to consider applications for the right to harness Campbell River, Vancouver Island, from the B.C. Power Corporation and the International Utilities Corporation. The board will shortly reject both these applications or grant one of them. If either application is approved the successful company will be given time, probably a year, to make plans and present a concrete industrial project to the board for final approval. When this is done all objections to the scheme will be heard at a further session.

Proceedings before the board at its afternoon session revealed striking facts about Campbell River development not known to the public before. Most important of these was the sworn testimony of experts that if the level of the Campbell Lakes and Buttle Lake is raised by power development timber companies in this district, with an investment of some \$25,000,000, will face enormous losses through the flooding of their timber and the total disorganization of their expensive railway lines.

Another announcement during the sitting was that the Federal Government was prepared to take over Strathcona Park and make it a great national resort provided the level of Buttle Lake was not tampered with in the power project.

ANOTHER SURPRISE

Just as the whole argument seemed settled the Strathcona Power and Pulp Company provided the third surprise

of the day by announcing that although it had no watery application before the board it was prepared to go ahead with construction of a large paper mill on Campbell River and sell the power of that stream to all consumers at a low cost. It asked delay until June 4 to supply proof that its principals in London could undertake this scheme and meanwhile accepted to the granting of any rights to the B.C. Power Corporation or the International Utilities Corporation. These objections were noted but the board refused to withhold a decision on these two latter applications, after the Strathcona Company had asserted that its rights on Campbell River were prior to all others.

At the opening of the afternoon sitting R. F. Matheson on behalf of the Associated Boards of Trade of Vancouver Island, presented a resolution asking that decision on Campbell River powers be withheld for three months until the whole question could be fully investigated.

Mayor Anson, of Victoria, presented the City Council's resolution supporting the B.C. Electric Railway Company's application for Campbell River powers through the Vancouver Island Power Company. He explained the city's anxiety to secure an adequate power supply for the future and also for equitable power rates.

PROTEST RAISING LEVEL

On behalf of clients who recently sold large timber areas on Lower Campbell Lake to Biodel, Stewart and Welch, H. J. Davis protested against any power scheme which would raise the lake and flood this timber. The limits could not be cut before 1934 or later, he said.

D. N. Hossie, counsel for the Campbell River Timber Company and other logging companies operating in the

Campbell River district, presented a detailed argument against any power development which would interfere with logging operations. He objected to the flooding of any timber and protested against any scheme which would force the timber companies to alter their railway routes and move their booming grounds from Menzies Bay north to a less advantageous location. He declared the companies he represented had invested \$25,000,000 in this region and through Government taxes all the taxpayers of the Province were interested in this investment. The timber companies had been operating there, he said, long before power companies ever thought of harnessing Campbell River. The cutting of timber would require a long time yet and he said the board should see that these operations were protected. No power scheme which would cripple them should be allowed, nor any development of the sort undertaken until the timber crop had been removed, he urged. He suggested that power companies meanwhile investigate other sources of power from steam plants.

S. G. Smith, manager of Biodel, Stewart and Welch, declared that the plans of the power companies for raising the lakes of the district would cut his company off from the region west of its present operations, where it planned to operate in a large way in the future.

FLOOD RAILWAY

Robert Pilberg, superintendent of the Comox Logging and Railway Company, stated that if Campbell Lake were raised as much as twenty-five feet ten miles of his company's present railway would be flooded, and the company would be forced to build a new line on a rocky side hill at great cost.

Supporting this statement F. W. Kirkland, the engineer who built the railway for the Campbell River Timber Company from Menzies Bay to its holdings, stated that it would be impossible to operate at a profit if a new line had to be built at the 600-foot level necessitated by the raising of Campbell Lake as proposed.

E. J. Garrett, president of the Campbell River Timber Company, testified that his firm had spent over \$3,000,000 in cash on its operations, and regarded vast timber limits west of its operations as potentially tributary to its railway. As head of a large company manufacturing steam generating equipment, he said that American companies were using this form of generation more and more. A large steam plant was being installed in Seattle and another in California in preference to hydro-electrical development.

These witnesses all stressed the fact that the proposed electrical development would force the logging companies to adopt a new railway route to the sea and boom north of their

The Difference With FOUR SPEEDS FORWARD

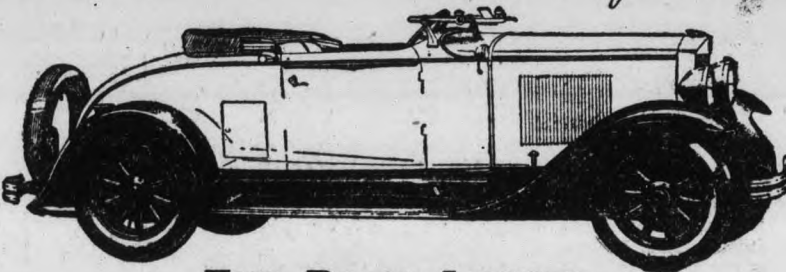

[Two High Speeds—Standard Gear Shift]

Five chassis—sixes and eights—prices ranging from \$1,425 to \$6,800. Car illustrated is Model 615, six cylinder Roadster (with Rumble Seat) Four Speeds Forward, \$1,860 (special equipment extra). All prices delivered Victoria, taxes paid.

Some owners say they enjoy most the thrilling performance of two high speeds; the silent, smooth swiftness of fourth, and the rapid and quiet acceleration of third. Others speak of the infrequent gear shifting in traffic, and the ease with which the car handles. Many emphasize the economy and long life of an engine and other moving parts which run more slowly at all road speeds, lessening wear and strain on both motor and chassis. You are invited to enjoy a demonstration.

present booming grounds at Menzies Bay. This would increase towing costs by fifty cents a thousand, it was stated.

HEAVY INVESTMENTS

C. S. Battle, of the British America Timber Corporation, said this company and other concerns which he represented, had invested \$5,000,000 in the Campbell River district, and were alarmed at the possible effect of the raising of Campbell and other lakes. The results of this work could not be foreseen definitely yet, he stated.

Mr. Smith was recalled to testify that if Upper Campbell Lake was raised only fifteen feet it would cut the big International Timber Company entirely off from its entire timber limits of 600,000,000 feet. Mr. Smith also testified that his own company, Biodel, Stewart and Welch, would pay \$250,000 to the Government in royalties this year besides incidental taxes of \$120,000. The International Timber Company and the Campbell River Timber Company would pay about the same amount each, he believed.

PROTECT PARK

C. L. Harrison, representing the Boards of Trade of the Courtenay and Comox districts, introduced the park aspects of the case. He said that the Federal Government was prepared to take over Strathcona Park, west of Campbell River, and make it a great national park under its well-known park administration, provided the level of Buttle Lake was not affected in any way. If there was any interference the Federal authorities would not take over the area. He said he had this definite information from the Department of the Interior. Strathcona Park was a great potential asset to the Courtenay and Comox districts, and if they were to lose it they wanted something to compensate them. Mr. Harrison asked that no rights on Campbell River be granted to any company unless it gave an enforceable undertaking to compensate these districts in some way with some other asset to replace the park. Otherwise, he suggested, the Government itself should develop the water power and sell the electricity.

The hearing was about to close when Major J. C. MacDonald, water controller, reminded R. L. Reid, K.C., counsel for the Strathcona Power and Pulp Company, that if his company was still interested in Campbell River it should indicate its interest now. The company, Major MacDonald pointed out, had no application before the board, which proposed to consider the applications of the B.C. Power Corporation and the International Utilities Corporation and make a decision on them shortly.

Mr. Reid explained that his company was not ready to make an application yet, and meanwhile proceeded with argument as objection to the granting of water licenses to either of the two applicants.

CLAIMS FIRST RIGHTS

Mr. Reid asserted that the interests which recently formed the Strathcona Power and Pulp Company had prior rights over all others to Campbell River. He explained that Gavin Burns and associates, who are now behind this company, had held an option on the rights of the Campbell River Power Company for some years and had paid out \$35,000 as Government rentals to keep the latter in good standing. Mr. Reid quoted T. D. Pattullo, former Minister of Lands, as promising Mr. Burns and associates first rights on Campbell River and said a number of gentlemen who had heard this promise had made a declaration to this effect. Then without warning Mr. Pattullo had handed the powers over to other interests (the Crown Willamette Company of Canada).

Mr. Reid explained that when the present Government threw Campbell River open to all applicants his syndicate had formed itself into the Strathcona Power and Pulp Company and made arrangements for financing actual development with its London principals. He read a telegram from the latter stating that they required until June 4 to supply proof of their ability to go ahead with construction.

"We are prepared to put in a 200-ton paper mill as fast as power can be developed," Mr. Reid said, "and to supply power at a low price to those who want it."

E. P. Bremner, one of the heads of the Strathcona Power and Pulp Company, gave the board a detailed history of the syndicate's connection with the Campbell River Company on which it held an option for some time. He explained that when this option was taken after the war the syndicate could not go ahead with a proposed pulp mill because of depressed world financial conditions. In 1915 he had suggested to George Kidd, then president of the B.C. Electric Railway Company, that it buy and use the power to be developed by the syndicate at Campbell River. Mr. Kidd had replied that his company was not interested in the northern part of the Island, but would be agreeable to Mr. Bremner and his associates operating there, stated Mr. Bremner.

Several times, he said, Mr. Pattullo extended the time during which development of the river could start, but had not given long enough extensions. Finally, when Mr. Pattullo threatened to refuse further extensions, a meeting in Vancouver was arranged, with the Vancouver members of the Legislature supporting the company's claims. But when Mr. Pattullo entered this conference, before argument could be advanced, he said he had given instructions to the Water Board to cancel the company's rights. After receiving vigorous protest from the company and from the Vancouver members, Mr. Pattullo said he would still give the company the first chance to develop the river, but when it was ready to go ahead the Minister announced that he had promised the powers to other interests. Mr. Bremner testified. The company then offered to buy power

from these interests for its paper mill, or develop the power and sell it to them. Nothing, however, came of this proposal.

Mr. Bremner said the B.C. Power Corporation could secure 40,000 horsepower by developing Great Central Lake, forty miles closer to its consuming market in Victoria than Campbell River, thus saving large transmission costs.

Gavin Burns of the Strathcona River and Pulp Company, corroborated these statements.

Mr. Reid asked the board to withhold decision on the two applications before it until the Strathcona Company's principals in London could furnish, on June 4, proof of their ability to start development. The board declined to promise a delay and will consider the two applications before it.

ANNOUNCEMENTS

Tennis Club Concert — Emmanuel Baptist schoolroom, Friday, May 17, 8 p.m. sharp. Elocution, sketch, orchestra. Admission 25 and 10 cents. ***

Rummage sale, 333 Johnson Street, Saturday, May 18, 10 a.m. ***

A Host of Travel innovations

to make your vacation more economical, more enjoyable

\$15 coach fare now good on 4 trains

Coach fares—\$15 to San Francisco, \$28 to Los Angeles have proved so popular that their use has been extended to all trains carrying coaches.

Formerly good only on "Coach Special," these fares are now good on the "Shasta," "West Coast," "Oregonian" and "Klamath" (formerly the "Coach Special").

Coach tickets good on tourist sleepers—

To give greater comfort at low cost, these coach fares have also been made good for use on Tourist sleepers. This arrangement permits an unusual saving. For example, the regular one way fare, Portland to San Francisco, plus lower berth in standard Pullman, is \$35.21. The Coach and Tourist fare ticket (lower berth) amounts to only \$19.50. A saving of \$15.71.

Vacation trips now at low fares

Effective May 15

Summer vacation fares to Pacific Coast points are on sale daily until Sept. 30. By train you save precious vacation hours for play. San Francisco, Yosemite, Los Angeles, Hollywood, San Diego, sunny beaches of Southern California—all are easily and quickly reached via Southern Pacific.

Daytime trip thru the Cascades

The "Klamath" (formerly the "Coach Special") now carries Tourist and Standard Pullmans in addition to day coaches, and provides a spectacular daylight trip over the new Cascade Line—thru great forests and along sparkling lakes and mountain rivers.

The "Cascade"

—gives the Pacific Coast a train "second to none"

Between the Northwest and San Francisco, the "Cascade"—color bearer of Southern Pacific's SHASTA ROUTE—has given extra speed and distinctive service. Drawing rooms or compartments (ensuite if desired). Club car, barber, valet, shower; ladies' lounge with maid and shower.

Direct connection is made at Oakland Pier with the "Padre" for travelers destined to Los Angeles.

On your way—the Redwood Empire

A new adventure to be combined with your SHASTA ROUTE trip to California—the Redwood Empire—thru forests of giant Redwoods and along the picturesque coastline of Northern California.

By Southern Pacific's SHASTA ROUTE trains to Grants Pass; by motor coach between Grants Pass and Eureka, Calif., then by train to San Francisco. Trip may be made either northbound or southbound. \$10.40 additional fare.

Circle trips east at summer excursion fares

You can double the enjoyment of your trip east by going one way via Southern Pacific. A choice of three routes east from California—San Francisco to Chicago and Midwest points; Los Angeles to Chicago, or to New Orleans and a delightful ocean cruise to New York (at no added cost). Returning, your choice of northern United States or Canadian lines. Circle trip fares are surprisingly low.

Phone or call on us at any time for all travel information

MANUFACTURERS TO MEET IN JUNE

Canadian Leaders Will Journey to Maritime Provinces

Toronto, May 16 (Canadian Press)—Canadian trade development, tariff, transportation and industrial relations are among the subjects on the program for the annual meeting of the Canadian Manufacturers' Association at Halifax, June 4, 5 and 6 next.

The proceedings will open on the morning of Tuesday, June 4, with a business session at which the reports of the treasurer and of the executive, membership, education, insurance and publishing committees will be presented and discussed. At noon the delegates will be welcomed to the province of Nova Scotia and the City of Halifax by prominent officials. L. W. Simms of St. John, N.B., will deliver his presidential address.

TRADE ADVANCE

The afternoon will be devoted to consideration of questions connected with Canadian trade development. This will be based on the report of the commercial intelligence committee. Representatives of the Federal Department of Trade and Commerce and of the Canadian Chamber of Commerce (Montreal) and a number of the Canadian Government trade commissioners will be present to assist in the debate. There will also be a discussion on trade groups and constructive co-operation in competitive merchandising.

At a third business session on the morning of June 5 the reports of such important committees as those dealing with the tariff, transportation, legis-

Nature Experiments With Human Race, Declares Scientist

Philadelphia, Pa., May 16.—Nature hasn't much interest in people after they reach fifty, Dr. Daniel J. McCarthy, professor of medical jurisprudence at the University of Pennsylvania, declared in addressing the women's auxiliary of the Philadelphia Medical Society.

"That's why," said Dr. McCarthy, "nature gave us removable teeth. Teeth that wear out and are lost and green and white canines. On leaving the children received balloons to take home with them. Those present included: Betty Allen, Hermione Vignier, Joyce Rowbottom, Violet Wylie, Ruth Low, Betty Low, Gladys Cook, Laura Higgle, Patsy English, Florence Clark, Nancy Lang and May and Muriel Robinson.

On Saturday afternoon, in honor of her little daughter, May's ninth birthday, Mrs. Russell Robinson entertained at a delightful children's party. Fourteen small girls spent an enjoyable afternoon playing games and in team contests. Tea was served on the veranda. The table was decorated with flowers and candles with a load cake with green and white canines. On leaving the children received balloons to take home with them. Those present included: Betty Allen, Hermione Vignier, Joyce Rowbottom, Violet Wylie, Ruth Low, Betty Low, Gladys Cook, Laura Higgle, Patsy English, Florence Clark, Nancy Lang and May and Muriel Robinson.

"Nature is not interested in brains, or culture or fine living. She is not interested in the pre-eminence of any nation. Germany thought so before the war. She was wrong. We think so now. We are wrong.

"Nor is nature interested in the pre-eminence of any race. Some day the black race may rise to dominance. Nature is interested in striking an average—in a perfect physical specimen. In a thousand years she may achieve that, but in the meantime insects may sweep over the earth and eradicate the human race.

"Nature than will put down the experiment with the human race as a failure and start all over again with the insects."

W. E. McCARA OF WINNIPEG DIES

Winnipeg, May 16.—William Elliott McCara, K.C., seventy, registrar-general of Manitoba and a pioneer of the province, died at his home here last night. He had been ill for several months.

Mr. McCara, born at London, Ont., came west in 1882. He had been connected with the land titles office here for more than forty-two years.

VANCOUVER ISLAND NEWS

Mrs. C. Allen Of Ladysmith Dead

Ladysmith, May 15.—Mrs. C. G. Allen died suddenly on Saturday morning at the family residence, White Street. The deceased was the wife of C. G. Allen, for many years chief of police of Ladysmith, and was fifty-six years of age. She had resided in this Province for forty-five years and is survived by her husband, three sons, William of Ladysmith, Charles of Chelmsford, and Thomas of New Westminster; and three daughters, Mrs. C. H. Bowden of Victoria, the Misses Vera and Margaret, at home; six grandchildren and her mother, Mrs. R. Dugdale.

The funeral was held from the residence on Monday afternoon and was attended by many friends from Victoria, Chelmsford, Nanaimo and Cumberland. The service was conducted by Rev. W. R. Brown. The following acted as pallbearers: W. W. Walker, D. Matheson, S. Rodding, J. Malpass, W. Sanderson and J. A. Knight. The many beautiful floral tributes required a special car for conveyance to the cemetery.

Miss Vera Anderson has returned to duty as nurse-in-training in the Royal Jubilee Hospital in Victoria, after spending a holiday here with her parents.

J. A. Beattie has returned to Vancouver after spending a holiday here with his parents.

J. Morgan was in Vancouver during the week, visiting his son, Godfrey. Many attended the garden party held Thursday afternoon at the home of Mrs. A. E. Thomas under the auspices of the local chapter of the I.O.D.E.

Mr. and Mrs. F. Peiky of Ruskin visited friends here during the week. H. Allan left during the week for Princeton.

Mrs. D. Davidson and J. Woods were delegates to the Foresters' convention held at Trill this week.

Mr. and Mrs. A. Clark and son Tom, and Mr. and Mrs. E. Peters of Cumberland were visitors here on Monday to attend the funeral of the late Mrs. A. G. Allen.

Mr. Hunter is visiting his daughter in Vancouver.

Mr. and Mrs. H. Allen of Nanaimo visited friends here during the week-end.

Mr. and Mrs. T. J. Allen have returned to New Westminster after attending the funeral of their mother, the late Mrs. A. G. Allen.

Mr. and Mrs. D. Greenhorn have returned to their home in Chelmsford after spending a few days here with Mrs. Greenhorn's parents, Mr. and Mrs. L. Handley.

About twenty-six have joined the Life Saving Society, organized under the leadership of Constable L. Byatt.

Chemainus

On Thursday, May 9, the Little Helpers of St. Michael's and All Angels branch of the Missionary Society of the Church of England in Canada were entertained in the paragon grounds to a very enjoyable party and tea. Following games tea was served outdoors by Mrs. Aiken and Mrs. Donald Clark. Those present included Michael Spurling, Rosemary, Dawson, Martin and Sylvia Stewart, Bobby, David and Teddy Low, Irene and Bertha Underwood, John Stubbs, Arthur Jackson, Harold and Mabel Knight, Pat Alister, Vera Fraser and Nancy Lang.

On Friday night one of the very best dances of the season was held in the Recreation Club, under the auspices of Chemainus Baseball Club. Many attending came from outside points. The Collegiate Five Piece Orchestra of Nanaimo provided excellent dance music. Supper was served in the picture house by committees of the younger set. The tables being attractive with Spring flowers. Dancing was continued until 2 a.m. The funds of the Baseball Club benefited by \$150 cleared.

On Saturday afternoon, in honor of her little daughter, May's ninth birthday, Mrs. Russell Robinson entertained at a delightful children's party. Fourteen small girls spent an enjoyable afternoon playing games and in team contests. Tea was served on the veranda. The table was decorated with flowers and candles with a load cake with green and white canines. On leaving the children received balloons to take home with them. Those present included: Betty Allen, Hermione Vignier, Joyce Rowbottom, Violet Wylie, Ruth Low, Betty Low, Gladys Cook, Laura Higgle, Patsy English, Florence Clark, Nancy Lang and May and Muriel Robinson.

Duncan

Duncan, May 15.—A public meeting was held in the Agricultural Hall, Duncan, on Monday evening, under the auspices of the Duncan Chamber of Commerce, at which a resolution was adopted to endeavor to come to some united agreement in this respect as regards the Cowichan district.

O. T. Smythe acted as chairman and brought the various points for discussion and resolution before the meeting.

The resolutions were: 1. To plant trout and bass on Somenos and Quamichan lakes; adopted.

2. Legislation re salmon eggs and shrimps as bait (ask that the sale of shrimps be deleted, and that the sale of salmon eggs be prohibited); adopted.

3. Plant brown trout in Koksilah and Cowichan Rivers; adopted.

4. Close season for steelheads; open December 15 to March 1, inclusive; adopted, with nine for and four against.

5. Closed season for river and lake trout in Cowichan district, October 15 to April 1; carried.

6. Nursery ponds at Cowichan Lake, Haterbury, on elsewhere and no try to be released till one or two years old; adopted.

7. Size limit to be ten inches for trout (ask that the limit be rejected with eleven against and eight for); adopted.

8. Destruction of Merganser ducks; adopted.

9. Regulation re weirs to be enforced as in 1913 agreement which the Indians were a party to; carried eleven to five.

10. Closer supervision of netting; not adopted. Amendment that department be asked to appoint more fishery officers for Cowichan River; adopted.

11. Re-define and enlarge closed sea area at Crofton as requested by the Duncan Chamber of Commerce and others; adopted.

12. Have proper fish ladders built at the falls on Cowichan River. Amendment, have dams on creek to Quamichan Lake so arranged that fish may ascend easily; carried.

13. Have proper fish ladders erected at Skute Falls and Koksilah; carried.

BOOTH TABLET MADE BRIGHTER

Nottingham, Eng., May 16 (Canadian Press)—A mystery concerning the sudden removal and equally sudden reappearance of a commemorative tablet on the house in which was born General William Booth, founder of the Salvation Army, is stirring Nottingham.

Several weeks ago two men reared a ladder against the wall and removed the stone tablet, on which was an inscription in black letters stating that here the founder of one of the great modern religious movements had first seen the light.

The tenants of the house thought the men had taken the tablet away to be cleaned by order of the town council, as was periodically done, but the town clerk disclaimed all knowledge of the matter. The municipal council finally decided the tablet had been stolen.

Then the tablet mysteriously reappeared. Like its predecessor, it was of stone, but the black letters of the inscription had been replaced with letters of shining gold.

The world's heaviest meat eaters are the people of Argentina. They average 346 pounds per year per person.

OFFERED GOVERNORSHIP

Washington, May 16.—Dwight F. Davis, former Secretary of War, has been offered the post of Governor-General of the Philippines and now has it under advisement. This was announced yesterday at the White House.

If the dawn of history means when man first appeared on earth, and that is imagined to have been twelve hours ago, then our known history is only five minutes long.

EATS MINCE PIE AND SLEEPS FINE—NO GAS

"I eat anything I want now—including mince pie. Thanks to Adlerika, stomach gas is gone and I sleep fine."—Charles Carter.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. At leading druggists. (Adv.)

MORE ACTIVE IMMIGRATION

WHILE HON. R. B. BENNETT IS telling Conservatives in Ontario that the policies of the King Government are sending the flower of Canada's youth to the United States, official statistics continue to bob up and make fun of his gloomy outlook. We learn from Ottawa, for instance, that in the last twelve months nearly 34,000 former Canadians who had resided for more than six months in the neighboring republic have returned home to take up permanent residence here. In addition to these, something like 30,000 American citizens crossed the border to make their homes in Canada.

In regard to the general movement of new people from Great Britain and Continental Europe, a recent statement issued by Mr. J. Bruce Walker, Director of European Emigration to Canada, surveys the work of the last twelve months and the prospects for this year in the following terms:

The emigration season for Canada has been fully opened up and leads us to believe that the figures for this year will be much more encouraging than we were at first inclined to think. The largest number that have landed in Canada in one week for a great many years, landed on Saturday last when 5,500 British settlers were landed from the following liners, the Duchess of York, Ascania, Montcalm, Minnedosa, Calgaric, Athenia and Regina. The type of emigrant arriving in Canada from this country is universally regarded as of high quality. The indications are that 1929 will reach the highest figures attained since the war. In the three months ended on March 31 last, 7,955 British settlers landed in Canada, as compared with 4,923 in the same period last year. In the first three months of the present year there have been notable increases in two or three categories. To begin with, 480 more families have left for Canada than in the same period last year. The number of household workers in the three months was 1,102, as compared with almost the identical figures for the same period last year—1,101. Perhaps the greatest increase is to be found in the case of boys and girls. Last year in the first three months 926 boys and girls under the juvenile society movement went to Canada, as compared with 2,236 in the same period this year.

The figures for the month of April are the highest for any April since before the war; that is to say, in accordance with the figures we have been able to obtain up till now. Emigration figures for the whole year ended on March 31 amounted to 167,722—an increase of 16,125 over the number for the preceding year, and the largest number since 1914. This very considerable army of new citizens included 58,880 British, 30,560 Americans and 12,806 Scandinavians, the balance being made up from a number of European nationalities.

It should be noted by those who have manifested not a little impatience over the comparatively small number of British people coming to Canada that this year bids fair to show a substantial increase. Even if this did not turn out to be the case, the fact certainly would not lie with the Canadian Government. It and the railway and steamship companies, together with the British Government, have done practically everything to induce Britons to come.

VANCOUVER'S BYLAWS

ALTHOUGH THE TAXPAYERS OF Vancouver did not vote the full programme of municipal improvements yesterday, they approved the expenditure of \$5,500,000, the Burrard Street bridge bylaw, asking for \$3,000,000, and the bylaw for a new City Hall, to cost \$1,000,000, failing to obtain the requisite three-fifths vote.

One of the bylaws approved gives the City Council the authority to spend \$300,000 on the establishment of an airport. Obviously this is a wise decision on the part of the taxpayers. It means that Vancouver soon will be in a position to handle properly all the air travel which may come its way. It will be equipped as most of the other important cities of the Dominion already are equipped.

The course which Vancouver now has taken in this regard should remind us in Victoria that the strategic position of this city demands ample facilities for catering to air travel. It will avail us nothing to sit back and wait until conditions appear to warrant before making any move. The business will not come our way unless and until we are in a position to handle it efficiently.

RESTOCKING CANADA'S LAKES AND RIVERS WITH FISH

CANADA'S SEA AND INLAND FISHERIES are among the most extensive and valuable in the world. The natural reproduction of sea fisheries is not, up to the present, showing the need of artificial assistance, probably because the spawning grounds and sea pastures of the oceans are so extensive that the annual reproduction keeps pace with the toll taken by the commercial fishermen. Natural reproduction has not, however, been found sufficient to maintain the fishing in our lakes and rivers on account of intensive operations, and to counteract this situation the Department of Marine and Fisheries, through its Fish Cultural Service, operates a number of fish hatcheries located at strategic points across Canada from the Atlantic to the Pacific. From these establishments annual distributions of fish eggs, fry, and fingerlings are made, with a view to assisting Nature in maintaining the productiveness of the inland waters.

During the fiscal year 1927 the Dominion Fish Cultural Service operated twenty-four main fish hatcheries, seven subsidiary hatcheries and four salmon retaining ponds. These were maintained in all the provinces in which the Dominion Government administers the fisheries, namely, Nova Scotia, New Brunswick, Prince Edward Island, Manitoba, Saskatchewan, Alberta and British Columbia. Ontario and Quebec administer their fisheries and operate their own fish cultural services. The 1927 distribution from the Federal hatcheries reached a total of 295,283,782 fry, advanced fry and fingerlings. This distribution included the more valuable food and game fishes, such as Atlantic salmon, rainbow trout, cut-throat trout, steelhead salmon, Kamloops trout, Loch Leven trout, brown trout, sockeye

salmon, Spring salmon, speckled trout, whitefish, salmon trout and pickerel. The largest distributions were of whitefish, sockeye salmon, Atlantic salmon and pickerel, in the order named.

In addition to the distributions that were made from the hatcheries, thirty-five lakes and streams received allotments of fry and older fish from other bodies of water. This work was largely confined to the Prairie Provinces, where many districts are not readily accessible to existing hatcheries, and involved the capture and transfer, in many instances for considerable distances, of 35,961 fish, comprising six different species.

The propagation of the commercial food fishes has always been given first attention by the Fish Cultural Service, but in recent years the demands for the stocking and restocking of lakes and streams with game fish has been steadily growing, so that now the hatching of trout and other game fish forms an important part of the work. At the St. John, New Brunswick, hatchery, where progress is being made in the development of a brood stock of trout, nearly two and three-quarter million trout eggs were produced in 1927. The growing value of a well-stocked angling stream may be gauged by a comparison of the rentals which were obtained in 1922 and 1927 for the angling privileges on certain portions of the Restigouche River and its tributaries. The angling in seventeen stretches of the river, which was disposed of by auction at Fredericton, New Brunswick, in 1922, brought annual rentals amounting to \$16,815. In 1927 the angling in the same waters brought the record figure of \$75,500 per year for the following five years.

BRANCH LINES APPROVED

APPROVAL BY THE SENATE OF THE Canadian National Railways branch lines programme should be welcome news to all Canadians. It insures a still further rolling back of the frontiers in a northerly direction, tapping territory which before many years have passed should be producing great wealth and sustaining a large population.

These undertakings which the Canadian National now will carry out recall the advice which Hon. Charles A. Dunning, Dominion Minister of Railways and Canals, gave to the young men of Canada about two years ago. He told them that if they were wise, if they desired to put their feet on the road to a competence, they would go north. Developments which have taken place in nearly all the sections of the country which lie to the north of the present comparatively narrow populated strip have proved the soundness of that advice.

The branch lines which the Senate now has approved will open up important sections of the three Prairie Provinces, for the most part northern Saskatchewan, and provide the necessary communication which the northern drift of population amply justifies.

A POULTRYMAN'S PROBLEM

AT ITS SITTING IN VANCOUVER ON Wednesday afternoon the Saskatchewan Royal Grain Commission was told by a Port Haney poultryman that if anyone would offer him fifty cents on every dollar of his investment, he would get out of the business at once. He had gone into the industry with an investment of \$43,000, had gone into it as a "sucker" and now was making money by stocking farms for new "suckers."

The burden of this witness's complaint was the high cost of feed occasioned by high freight rates. But it would appear that if he really had the interests of the poultry industry at heart, he would have confined himself to a discussion of the problem which had been facing him and others engaged in the business. Instead of this, however, he wrote a poor advertisement for the Province and revealed himself in a rather unpleasant light.

We do not know what impression the testimony of this witness made upon the Commission. We suggest it would be somewhat negligible. He no doubt was right when he discussed the cost of feed; even so, there are many poultrymen—not able to buy feed so advantageously as the poultrymen at Port Haney—who seem to be doing very well indeed. Many of these are in the business on Vancouver Island.

Unless, we have read something into the Port Haney producer's remarks which he did not intend to imply, we should be inclined to think that he is possessed of a temperament somewhat unsuited for the business into which he says he went as a "sucker." Such a view would seem to find support in his admission that he had made money by passing on his misfortune to others.

WHAT OTHER PAPERS SAY

CANADA AND THE WEST INDIES
The Saskatoon Star-Phoenix

Considering that negotiations for commercial relations between the West Indies and Canada began in 1886, it is apparent that Canadian companies have taken a long time to realize the possibilities in West Indian trade.

GROWTH OF TREE-PLANTING
The Natural Resources

In connection with the distribution of trees to prairie farmers in Canada which is made annually by the Tree Planting Division of the Forest Service, Department of the Interior, it is interesting to note that each Spring nearly 8,000,000 young trees are sent out; shipment of these trees requires 2½ carloads of moss and nearly ten miles of forty-five-inch burlap. Before many years are gone, the "treeless prairie" will be a thing of the past.

TESTIMONIAL ADVERTISING
The Financial Post (Toronto)

How long can the public be fooled into believing in paid testimonials? How many people are there in the world gullible enough to believe that whenever an aviator breaks a record his first demand on reaching the earth is for a Lucky Strike cigarette; that when a speed demon raises an automobile speed record he can only quieten his nerves by reaching for a Lucky; that whenever a person gets in the news in any manner he celebrates by lighting a cigarette and sending a telegram to that effect to the firm that manufactured the cigarette. There is not much spread between the faded testimonial and the bought and paid for testimonial. Testimonial advertising is losing out because it is being abused. The question is now seriously raised as to whether or not advertising now needs a code of ethics that will prevent the abuse of time-honored methods of selling through the printed word. Honest testimonials, sincerely expressed, form the most effective basis for an advertising campaign, but even honest testimonial advertising will not be able to convince people if they lose any faith they ever had in testimonial advertising simply because this form of publicity is dishonestly used or improperly abused.

Loose Ends

SANTIAGO does a strange thing to its children. The secret sufferings of our public servants—together with some reflections on garden tools—and a German view of the Crime Wave.

By H. B. W.

SANTIAGO, CHILE, is building a municipal theatre for the entertainment of children only. Here plays and movies specially written for children and no others, will be shown. In this way, according to Mayor Enrique Balmaceda Toro, the city will deprive its children of those valuable impressions of life which their parents derive from the screen. The unfortunate children of Santiago will be sadly handicapped in competition with the offspring of the more enlightened peoples in the northern hemisphere, where every child has learned from the movies all the vital truths of life long before he reaches the entrance class and, indeed, it is difficult to understand why the authorities bother to maintain the schools.

HE HAS learned about other valuable things that the institution of marriage is perishing; that all men are naturally polygamous; that rich men are fat and wicked and give expensive presents to chorus ladies; that every householder should keep a large revolver handy to shoot his wife's lovers, with a machine gun or two hidden in the radio for more serious emergencies; that the sons and daughters of all well-to-do families get drunk every night, wreck several cars every week, and commit a murder at least once a year; that Canadians live on snowshoes and are in daily terror of the Mounted Police; that business is the only thing that matters; and that it is dangerous to suppress any desire, no matter how violent, for suppressed desires are bound to lead in the end to suicide or indigestion. With such advantages for our young we should have no trouble in maintaining supremacy over the more backward people of South America.

EX-PRESIDENT COOLIDGE reveals in one of his latest articles that he did not choose to run last year because the physical wear and tear of the Presidency was too much for his health. This may surprise the electors, but it will not surprise any man who has held high public office in North America. And there you have the most pressing problems of our democratic system.

ANYONE WHO has been on the inside of politics knows that public men, beneath a cheerful, hand-shaking exterior, are under a constant physical strain probably not duplicated in any other department of life. A successful business man may have a large concern and found plenty of time for golf and holiday, becomes the head of a government department, whether it be at Washington, Ottawa or Victoria, and finds that he never knew what work was before. Should he attempt to import the methods of his own business into the job things are harder than ever, for though we always cry out for more business in government, we always resent anything of the sort when it is attempted. We want our ministers to be miracles of efficiency, but insist that they run all over the country attending gentlemen's smokers and ladies' afternoon teas. Let a minister refuse such invitations and stick to business and he will be removed at the next election. People who would never dream of troubling a bank manager feel that as a matter of right they should be allowed to waste the entire morning of a cabinet minister. Indeed, the more time a cabinet minister wastes on people who don't need it the more likely he is to be re-elected.

STRANGELY ENOUGH, and contrary to popular belief, public men on the whole are a hopelessly conscientious lot. They are far more punctilious about public business than their own. If the public wastes their time in business hours they make it up when they should be at home or asleep. Were all the work of private business executives put under the fierce glare that follows the public man's every act, my own theory is that we should find public affairs more intelligently conducted than private business. The blunders of private business are seldom revealed, while the blunders of public affairs are the stuff out of which elections and democracy are made. The only solution to these difficulties seems to be the election of two men to every important office, one to do the job and the other to attend the smokers and afternoon teas.

THE HARDWARE shops are displaying their usual Spring stock of the latest, shiniest and most alluring garden tools. Few honest men can pass them by. In front of most such displays at this magic season you will find hard-headed business men pausing on their way home from the office to gaze wistfully at the latest rakes, hoes, shears and wheel-barrows like children at fascinating toys. Deep in the breast of every man is an instinct which has survived since the days when we all were farmers. You can see many a man, whose most violent exercise is signing his name with a fountain pen, staring at a set of nice new garden tools and imagining himself wrestling his daily food from the soil. The shiny new tools are meant for men like that. They buy them and keep them shiny. But by an immutable law of nature the first lushness of the season, the mouth-watering carrot and voluptuous bean watering carrot and voluptuous bean are not for such men as these. They will not grow unless they are nursed and rocked to sleep by a hoe at least two years old, rusty, bent and disreputable, in the calloused hands of a true believer.

THE OTHER day President Hoover, in one of the most candid mes-

With Our

Sootless Coal

KIRK COAL CO.
1212 Broad Street Phone 139

ages ever delivered by the Chief Executive of the United States to the public, declared: "Life and property in the United States are relatively more unsafe than in any other civilized country in the world." From New York comes a little story which shows what Mr. Hoover meant more clearly than yards of crime statistics. The North German Lloyd liner Stuttgart docked at a New York pier with a bullet to the amount of \$6,400,000 aboard. Gauntleted, cartridge-belted policemen swarmed up the gangplank. Others, armed with sawed-off shotguns and machine guns, waited on the pier. The gold was stowed in armored trucks and escorted by the officers of the law with their artillery to Wall Street. Said Purser Emil Remer, of the Stuttgart, who had brought the bouillon from Germany: "When that gold was delivered to me in Germany it came in an ordinary express wagon. All it needed to protect it was one man sitting beside the driver."

The Weather

Daily Bulletin Furnished by the Victoria Meteorological Department

Victoria, May 16—5 a.m.—The barometer remains high on the Coast and cooler weather with light showers prevail over this Province. Higher temperatures are reported in the prairie.

Reports

Victoria—Barometer, 30.26; temperature, maximum yesterday, 66; minimum, 46; wind, 16 miles W.; rain, trace; weather, clear.
Vancouver—Barometer, 30.52; temperature, maximum yesterday, 62; minimum, 50; wind, 12 miles W.; rain, .01; weather, fair.
Prince Rupert—Barometer, 30.30; temperature, maximum yesterday, 52; minimum, 42; wind, calm; rain, .24; weather, cloudy.
Estevan Point—Barometer, 30.28; temperature, maximum yesterday, 52; minimum, 46; wind, 4 miles W.; rain, trace; weather, cloudy.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Daily Times, May 16, 1904.

Liao Yang, May 14 (Delayed in transmission)—The Russian fleet scored its first distinct naval success of the war on May 10, by torpedoing and crippling, though not sinking, an armored Japanese cruiser in Taitenwan Bay.

Weather forecast—Victoria and vicinity: Moderate to fresh winds, chiefly cloudy, with occasional showers to-night or Tuesday.

In the second baseball game of the season played at Oak Bay Park on Saturday with the University of California team, the Victoria nine demonstrated its ability to more than hold its own in the fastest company. The college boys were completely outclassed, victory going to the locals to the tune of 8 runs to 1.

On Saturday the annual inspection of the Fifth Regiment C.A. took place at Beacon Hill before a large crowd of interested spectators. Lieut.-Col. Hall was in command.

The rowing committee of the James Bay Athletic Association has decided upon the personnel of the junior four to represent the club in the race with the Vancouver crew at the celebration regatta as follows: F. Dresser (stroke), J. Finlayson (3), R. Power (2), and L. Foot (bow).

C. H. Dickie, of Duncan, is in the city. He is staying at the Victoria Hotel.

Drake, chairman training school committee; presentation of the National Nurses' Association; presentation of their respective prizes by Dr. A. G. Price, Dr. E. W. Boak, and Dr. D. M. Halliday; address, Hon. R. R. Bruce and Mayor Anson.

RED CROSS STILL CARRYING ON

National Report Shows Work For Ex-Soldiers Undiminished

Ottawa, May 16.—A definite advance in the ramifying activities of the Canadian Red Cross Society during 1928 is reported by Dr. L. B. Biggar, national commissioner, Toronto, at yesterday's session of the central council of the society.

At the end of the year under review 432 local branches were functioning. The total included fifty-three new branches and reorganization of fifty-two inactive branches. The commissioner reported that although the year had elapsed since the end of the world war, there had been no material diminution of Red Cross service for ex-soldiers.

Concert at St. Mary's Success

A delightful concert was given in St. Mary's Hall, Oak Bay, on Tuesday evening, under the auspices of the evening branch of St. Mary's W.A. The evening was a most enjoyable one, the artists all having to respond with an enthusiastic audience. The members of the evening branch of the W.A. extend their thanks to those friends who took part.

The first half of the programme was as follows: Pianoforte solo, Miss Grace Allen; gypsy dance, Miss D. Borrowman; vocal solo, Mr. Chas. Sherwood; recitation, Mr. R. F. Elandy; tap dance, Miss D. Hamlet; vocal solo, Mrs. Darling; violin and piano trio, Miss D. Francis, Miss T. Parker and Miss P. Cockell. The accompanists were Miss N. Sherwood and Arthur Bird. Miss Grace Allen played during the interval.

The second half of the programme consisted of a humorous sketch by Arthur Pining, entitled "The Playgoers" which was very well done and caused lots of amusement, the cast being as follows: Mrs. Dorington, Miss May Flack; Mr. Dorington, Norman Flack; odd man, H. Llewellyn; parlor-maid, Miss Pat Wells; housemaid, Miss M. Nickerson; cook, Miss N. Sherwood; useful maid, Miss N. Price; kitchen maid, Miss L. Garland. The singing of the National Anthem brought the evening to a close.

Victoria School of Expression—On Friday evening next the Victoria School of Expression will hold its final recital of the season at the Sons of England Hall, Broad Street. A varied and attractive programme has been arranged. The students taking part will be those who won honors at the recent musical festivals. There will also be some instrumental numbers. It was intended to include three senior groups, whose members have rehearsed plays under Mrs. Ord's direction, but owing to the length of the programme it will only be possible to include one of these, who will present an attractive one act playlet. The entertainment will begin punctually at 7.30 o'clock.

Personal Items

His Honor the Lieutenant-Governor and Miss Mackenzie returned to Government House this morning after spending the last ten days on a tour of the interior of the Province. During the morning Capt. C. C. Dobson, V.C., D.S.O., of H.M.S. Colombo paid an official call upon His Honor.

Capt. L. F. Jackson of Ottawa is a guest at the Empress Hotel.

Mr. and Mrs. Ivan H. Crooks of Calgary are guests at the Empress Hotel to-day.

Mr. P. B. Freeland of Grand Forks, B.C., is staying at the Empress Hotel to-day.

Mr. and Mrs. H. J. Humphrey arrived in the city to-day from Montreal and are staying at the Empress Hotel.

Mrs. Billy Wells, Eberts Street, has returned to her home after a visit to Vancouver.

Mr. and Mrs. D'Arcy Martin and family will arrive in Victoria next week from California for a short visit.

Major P. Hennessey, Work Point Barracks, has left for Vernon where he will spend the next three weeks.

Mr. and Mrs. C. S. Thomas of Edmonton arrived here from the East yesterday and are staying at the Empress Hotel.

Mrs. H. A. Maclean entertained this afternoon at bridge at her home on Moss Street. Seven tables were in progress of play.

Mrs. H. Smithson of Vancouver came over from the mainland to-day on a visit to her parents, Mr. and Mrs. W. M. Lawrence, Island Road, Oak Bay.

Mr. Walter Stone, Santa Barbara, Cal., is visiting his brother and sister-in-law, Mr. and Mrs. J. R. Stone, Faithful Street.

Mrs. Earle Spalding of Vancouver will spend the week-end in Victoria as the guests of Mr. and Mrs. R. C. Pembroke, George Road.

Mr. and Miss Pheasant have arrived in Victoria from England to spend the summer here, and are staying at the Guest House, Oak Bay.

Mrs. Herbert W. Paine came over from Vancouver on Tuesday on a visit to Mrs. G. H. Barnard, "Duvals," Rockland Avenue.

Mrs. Lorne Campbell left for Vancouver yesterday afternoon, where she will be the guest of Mrs. A. N. Skill for a few days.

Mr. and Mrs. Jack McLaughlin, of Victoria, are visiting Mr. and Mrs. Arthur Salisbury in Vancouver, en route to England to spend the summer.

Mrs. Howard Miller and family, Rockland Avenue, have returned to Victoria from California, where they spent the winter months.

Mr. and Mrs. R. P. Butchart returned to "Benvenuto," Tod Inlet, on Tuesday after spending the last week in California.

Mrs. R. H. Bassett of Pembroke Street, has just returned home from Paden, Cal., after a delightful visit with her son-in-law and daughter, Mr. and Mrs. J. Ewart Jones.

Mrs. E. A. Wilmut, Elliott Street, who went over to Vancouver to meet her son, Major E. A. Wilmut, on his arrival from England, has returned to her home in Victoria.

The many friends of Mrs. Kitson will be pleased to hear she has recovered from her recent illness and has returned to the Guest House, Oak Bay, from the Jubilee Hospital.

Mrs. F. M. Bradley of Kimberley and baby are visiting in Victoria as the guests of Mrs. T. A. Brady, Carberry Gardens, and expect to spend the summer here.

Mrs. G. E. Walls, Patio Court, Oak Bay, has returned to her home in Victoria after visiting in Vancouver as the guest of her mother, Mrs. Bradley.

Mr. G. P. Napier and Miss Peggy Napier have returned from Vernon, where they were the guests of Mr. Napier's brother-in-law and sister, Mr. and Mrs. G. H. Pethick.

Mrs. J. W. Thompson has returned to her home in Toronto after spending several months as the guest of her son-in-law and daughter, Hon. W. A. and Mrs. McKennie, Windsor Road.

Miss Florence McMillan, of Victoria, was the bridesmaid at the marriage of Miss Dorothy Lobb, and Mr. Frank Fox, of Nelson, which took place in St. Helen's Church, Point Grey, Vancouver, on Monday.

Mrs. G. R. Skinner of Qu'Appelle, and Mrs. George Mackenzie of Toronto, who have been spending the winter at 1461 Hampshire Road, left on Tuesday for Vancouver from whence they will embark for Prince Rupert on their homeward journey.

Commander L. W. Murray and the officers of the West Coast entertained at the Naval Barracks yesterday afternoon in honor of Captain C. C. Dobson, V.C., D.S.O., and officers of H.M.S. Colombo. About fifty guests were invited to meet the visitors.

Mr. F. R. Pennefather of Winnipeg and Mrs. Pennefather, who have been visiting in Victoria as the guests of Mr. and Mrs. G. P. Player, Richmond, have left for Vancouver, where they will visit prior to returning to their home in Winnipeg.

VARSITY WOMEN DOUBLE GIFT

The University Women's Club of Victoria has increased the scholarship given annually to Victoria College from \$50 to \$100. This scholarship is awarded to the woman student taking the highest standing in her first year, and continuing her course in the second year at Victoria College.

MUSICAL CLUB TO BALLOT ON RECITAL POLICY

Opposition Voiced at Annual Meeting to By-law Excluding Guests at Monthly Recitals

Mrs. J. O. Cameron Is New President; Loss on Artists' Series Causes Discussion

Considerable discussion was waged at the annual meeting of the Ladies' Musical Club yesterday afternoon over the new policy instituted last year of restricting the attendance at the club's monthly recitals to members only.

Many of those present voiced their opinion on the subject, and it was finally decided that a referendum be held, under which every member be asked to vote as to whether the present policy be continued or whether the club should revert to its former policy of admitting the public to its monthly recitals on the payment of an admission fee.

In her annual report Mrs. F. D. Brae, the secretary, showed that the membership for 1928-29 was 249, made up as follows: 148 associate, 45 active, and 56 student members. In the previous year the membership had been 171, made up of 86 associate members, 43 active, and 32 student members.

Mrs. F. G. Aldous reported a balance of \$185.52 in the bank, and noted that receipts from guests at the monthly concerts this year were only \$51, as against \$636 received in the previous year under the old policy of admitting the public.

Mrs. D. E. Campbell, retiring treasurer, presented the financial statement of the professional work and reserve funds.

Her statement showed the loss of \$500 on the artists' series last season, owing to lack of public support, which loss had been made up from the reserve fund of \$1,000.

The announcement of the loss on the professional work created much discussion. In reply to a question from Mrs. Llewellyn Thomas as to the feasibility of providing some cheaper prices, the secretary stated that the club's disposal was not large enough to ensure the club against the financial risk entailed in lowering the prices of seats for such high-priced, world-renowned artists as had been brought here.

Mrs. Cameron pointed out that in Santa Barbara, California, a city no larger than Victoria, musical enthusiasts had raised a guarantee fund of \$80,000 to protect the musical club there in bringing musical stars to the city. Were such a fund available in Victoria, the club would be able to experiment in bringing these great artists at popular prices, but under the present conditions the club could not undertake the financial risk entailed.

Mrs. Richard Nash, for the monthly programme committee, reported that eight monthly recitals had been held, also one musical tea. Of the monthly recitals five had been devoted exclusively to local talent. She also noted that the 1929-30 season would probably open with the annual students' recital.

Officers Elected
The election of officers and committee for the ensuing year resulted as follows: President, Mrs. J. O. Cameron; first vice-president, Mrs. W. G. Wilson; second vice-president, Mrs. B. T. Drake; secretary, Mrs. F. D. Brae; treasurer, Mrs. Aldous. The convener of programmes is Mrs. Richard Nash, and the following is the new executive: Mrs. Hermann Robertson, Miss Aileen Dumbell, Mrs. F. D. Brae, Mrs. G. A. Bucklin, Mrs. W. G. Wilson, Miss Irene Bick, Mrs. Forrest Leeder, Mrs. R. Nash, Mrs. Curtis Sampson, Mrs. G. Hicks, Mrs. G. Hale and Mrs. Aldous.

Votes of sympathy were passed to Mrs. B. T. Drake, past president, and Mrs. Hebbden Gillespie, who have both suffered bereavement recently.

NEW YORK GOVERNOR'S SON TO WED

When James Roosevelt, son of Governor Franklin D. Roosevelt, of New York, is graduated from Harvard Law School, he'll be wed to Miss Betsy Cushing, of Brooklyn, Mass. The bride and bridegroom-to-be are pictured above immediately after their engagement was announced. Miss Cushing is a daughter of Dr. Harvey Cushing, widely known brain surgeon. She is a graduate of Westover School and made her social debut in the Fall of 1927.

Comfortable Vision

It is not so long ago since the only aid the Optometrist could give was the improvement of vision. Modern scientific developments and optometric research have made many discoveries in recent years. The new Optometry can give comfortable use of the eyes where glasses alone have failed to relieve.

One may have good vision with glasses or without glasses and yet have serious discomfort. These conditions are now better understood, and are being corrected by the new technique. Have us diagnose your eyesight conditions.

Strawberry Vale

Under the auspices of the Woman's Association an interesting entertainment was held in the Wilkinson Road United Church last evening, when medals in the recent musical festival and the McKennie Avenue festival choir, delighted an audience which filled the church to capacity.

The following programme was rendered: Rev. H. A. Ireland acting as chairman:

Choruses, McKennie Avenue choir; vocal solo, Dr. T. H. Johns; piano solo, Miss E. Nixon; vocal solo, Miss Sipprell; violin selection, Master Alfred Hewitt Fowler; vocal solo, F. Tupman; recitation, Miss Audrey Nixon; chorus, McKennie Avenue choir; duet, Miss Sipprell and Dr. Johns; piano solo, Miss E. Nixon; vocal solo, F. Tupman; recitation, Miss Audrey Nixon.

Miss Rothwell and Miss Morton accompanied.

Rev. H. A. Ireland, Glyn Road; T. W. Goodhue, Royal Oak, and Mr. Sim, Garden City, left on Tuesday night to attend the annual conference of the United Church in Vancouver.

The name of Mrs. Lynn who did so much toward making a success of the upper concert and dance held in Margold Hall on Friday last, was inadvertently omitted.

Mooseheart Legion—Women of Mooseheart Legion, Victoria Chapter No. 25, held their regular meeting in the K. of O. Hall, on Monday evening. Senior Regent Hatcher presiding. There was a large turnout of members. Legionaire Brown reported on the sick members. Past Regent White gave a splendid report on the social work, as did also Legionaire Shaw. The raffish. Two new members were enrolled into the chapter. Senior Regent Hatcher was appointed delegate for the Northwest Moose convention, for which all arrangements are now being made. The following are the winners of the various prizes: Pillow cases, 135; lampshade, 250; scarf, 312; apron, 2. At the close of the meeting the chapter was joined by Maple Leaf Legion for refreshments, served by Past Regent White and her committee.

YOUR BABY and MINE

By MARY MEYER ELLERED

Mrs. Ellered will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

BABY OF ONE YEAR DISPLAYS MANY CAPACITIES

The degree of intelligence developed by a year-old baby is usually in direct proportion to his physical abilities. If Tommy can creep or pull himself up and walk about holding on, he can likewise peep into the kitchen and stand by while dresser drawers are opened or the cupboard doors reveal their fascinating mysteries, and Tommy will be a brighter boy because of it. If, in addition, he wields his own spoon however ineptly, and lifts his own cup, all the finger dexterity thus exercised makes him more mentally alert.

LET BABY DEVELOP

The idea that a year-old baby must be treated as if he were six months old is just as ridiculous as the notion that a baby should be treated as if he were a year-old. There are babies who, because of illness or handicaps of diet, cannot meet these average measurements of activity and will have to have much more help than this article seems to indicate, but they are exceptions. For the average year-old baby is just as bright and just as capable of the aforementioned activities as his mother will allow him to be. The reason he remains an infant when past the infant age is only because it is more convenient for his mother to keep him strapped in a high chair, or in a carriage than it is to watch him when he runs about, and less messy to feed him than to allow him to stick fingers in his food and drop hunks from his spoon until practice has made him more perfect.

ACTIVITY BREEDS EXPERIENCE

In his journey from room to room he is bound to encounter a lot of obstacles to his movements, and likewise run into many taboos. "Tommy, keep hands off mother's vase, it might break!" "Tommy, keep fingers off the drawer or they might be pinched." Thus he learns day by day the names of the objects about him and their characteristics. Stoves are hot, ink is black, glue is sticky, vases break, books tear; no wonder he is mentally ahead of the child who lies in his crib or sits for hours in his high chair and plays with the toy handed him by his mother, or is fed entirely by her. He is actually prevented from gathering the bundles of experiences which will increase his mental store.

THINGS BABY SHOULD DO

If given a cup and some cubes,

o'clock on Saturday. Tea will be served on the lawn outside the hall, by kindness of the Bishop and Mrs. Schofield. An interesting programme of instrumental and vocal selections has been arranged, with a group of songs and recitations by little children, known as the "Tiny Tots in Training."

COLOMBO CREW IS ENTERTAINED

Army and Navy Veterans Stage Concert For Visiting Sailors

Capt. C. C. Dobson, V.C., D.S.O., and officers and men from the H.M.S. Colombo were welcomed at a concert staged by the Army and Navy Veterans, Victoria Unit, last night. In a short address, Capt. Dobson urged that Canada should pay more attention to the development of her navy. He thanked the members of the club for the warm welcome extended to the complement of the ship. Community singing and a number of fine stage turns made up the greater part of the evening's programme.

"I wish you could wait until I am suited with another maid, Jane." "I'm willing enough, mum, but I don't feel I know him well enough to disappoint him in putting it off, like."

Baptist Entertainment—The Second Mile Club of the First Baptist Church will present an entertainment in the Sunday School room on Friday evening at 8 p.m. An amusing programme has been arranged.

Metochosin

S. A. Anfild, of the Canadian Forestry Association, gave an illustrated lecture at Metochosin Hall on Monday. There was a good attendance. The pictures were much enjoyed and comprised "Forest and Wealth," British Columbia news reel, British Columbia travelogue and a comic reel. The speaker was introduced by W. G. Milsted, and at the conclusion of the address refreshments were served by Mr. and Mrs. W. O. Sweetman, Mrs. McVicker and Mrs. P. A. Pearce.

Baptist Entertainment—The Second Mile Club of the First Baptist Church will present an entertainment in the Sunday School room on Friday evening at 8 p.m. An amusing programme has been arranged.

NEW ASSEMBLY IS INAUGURATED

Mrs. R. A. Barr President Canadian Daughters' League Branch

The inaugural meeting of Assembly No. 30, Canadian Daughters' League, was held in the Sons of Canada Hall, Tuesday evening. Mrs. Robt. Ritchie, organizing secretary, acted as emcee, assisted by Mrs. Angus Galbraith as installing marshal, and Mrs. W. A. Tison as junior installing marshal. She installed and instituted the assembly with thirty-five members and the following officers: President, Mrs. R. A. Barr; first vice-president, Mrs. E. Clarke; second vice-president, Miss Louise Noble; recording secretary, Miss Reta Gottiell; corresponding secretary, Miss Bernice Dewar; financial secretary, Miss Mildred Dickson; treasurer, Mrs. J. P. Owen; chaplain, Mrs. Muriel McDonald; inner guard, Mrs. Dineley; outer guard, Mrs. C. A. McGregor; his-torian, Mrs. L. Campbell. The installing officers were presented with a beautiful bouquet of pink tulips by the president from the assembly in appreciation of her services.

Mrs. R. A. Barr, first president of Assembly No. 30, was the recipient of a beautiful bouquet of pink carnations, on entering her station, while each officer was presented with a dainty corsage bouquet on assuming her duties.

Mrs. Robt. Macintosh, who delighted those present with charmingly rendered solos, was ably accompanied by Miss Myra Jean Galbraith at the piano. Each was presented with a beautiful bouquet of pink and white tulips.

A historical contest was conducted by Mrs. H. Wilson, the winner being Miss Louise Noble. Mrs. L. Campbell contributed many pianoforte selections during the tea hour.

ABLE COMMITTEES

Under the able supervision of Mrs. George Lillie, as general convener, the various sub-committees carried out excellent work. Mrs. W. A. Tison supervised the decoration of the hall, assisted by Mesdames Dewar, Edwards, Cottle and H. A. Wilson, and under their clever hands the hall was transformed into a floral bower with lilacs, tulips, narcissi and other Spring blossoms. Mrs. Angus Galbraith acted as emcee for the evening.

It was decided to meet in the Sons of Canada Hall on the second and fourth Tuesdays in the month. A special meeting will be held Friday evening to complete arrangements.

DOROTHY HICKS ACHIEVES NEW ARTISTIC SUCCESS

Brilliant Young Singer and Her Sister Delight in Concert at Empress

Dorothy Letitia Hicks, gifted daughter of musically gifted parents, advanced another step in her brilliant and rapidly expanding career, by the triumph she achieved in her song recital in the ballroom of the Empress Hotel last night.

The audience, which almost packed the hall, was most enthusiastically demonstrative in its appreciation of this fascinating young lyric soprano and the delight her work gave. She won her hearers with her pretty personality as well as her naturally musical and well trained voice. She is instinctively the artist.

Last night's audience was made up largely of old-time Victorians and members of their families and they showed unmistakable pride in the present achievement of this native daughter and what it presages for her future.

Miss Hicks' programme consisted of English and French songs, and the Italian "Mi Chiamano Mimma" from Puccini's "La Boheme."

MODERN GROUP

In her first modern group she sang Anna Case's "Song of the Robin," George Roberts' "Up on the Top of the Hill" and Pear Curran's "Ho, Mr. Piper." Her classic group consisted of Mozart's "The Violets," Brahms' "The Little Dustman," Greig's "The First Primrose" and Mendelssohn's "On Wings of Song," her interpretation of the latter being exquisitely beautiful.

In her French group she sang "Bon Je Ne Crois Pas," the eighteenth century "Que Ne Je la Fougere," "Venez Agreeable Printemps" and "Lisette," all arranged by Weckerlin.

Her costume group was made up of "I'd Be a Butterfly" by Thomas Haynes Bailey, "My Mother Bids Me Bind My Hair" by Haydn, and a pastoral from "Bohemia" by Veracini. For her encore she chose "The Daisy," Lisa Lehmann's "Nobody Loves Me But My Daddy" and "The Icicle."

Beatrice Hicks, a sister, was accompanist, and to many who had not known of her ability, she was a happy surprise.

She also is a musical artist. She played two of Brahms's numbers, the "Caprice in B Minor, Op. 76, No. 2" and the stirring "Rhapsody in E Flat, Op. 119, No. 4."

Numerous bouquets were heaped on the two sisters during the course of the recital, until the extent of the stage was covered with a mass of gorgeous blooms.

HUGO ANSON IS EXAMINER HERE

Royal Academy and Royal College of Music Name Canadian Examiners

Men of Distinction to Examine Pupils in Canada This Year; Dr. Markham Lee Prominent

Musical examinations in British Columbia for the Royal Academy of Music and the Royal College of Music will this year be conducted by Dr. E. Markham Lee, Gordon Bryan and Hugo Anson. The Associated Board of the academy and the college has announced the appointment of these three musicians, together with Dr. Basil Johnson and McCarr Symons, as the examiners for Canada. Mr. Anson is expected to examine in Victoria and on Vancouver Island, while Vancouver mainland examination will be conducted by Dr. Lee and Mr. Bryan.

Mr. Anson, M.A., Mus. Bac., was born in New Zealand, educated at Cambridge, and is professor of composition, harmony, counterpoint and ear training at the Royal College of Music, and has published a number of works, including compositions for piano, violin, violoncello and numerous songs.

Mr. Bryan studied under Oscar Reisinger, Percy Grainger and others, and has done a great deal of concert work all over England. In his repertoire he has specialized in piano concertos and chamber music.

Dr. Lee, M.A., Mus. Doc. Cantab, F.R.C.O., is a well-known composer, author, lecturer and pianist. He has been examiner in music to the University of London, director Woodford Green Chamber concerts, university extension lecturer to Oxford, Cambridge and London universities, lecturer on music, University College, Leicester; adjudicator for various musical festivals and has been much engaged in musical literary work and various forms of composition. His publications include "Story of Opera," "The Story of Symphony," "On Listening to Music," "Technique," "Grieg," "Brahms, the Man and His Music." His compositions cover a large field, church music, choral music, pianoforte pieces and songs.

St. Louis College — The students of St. Louis College will give their annual entertainment on Monday and Tuesday evenings, May 20 and 21, in the auditorium of St. Ann's Academy. As the proceeds will be for the building fund for the new college it is hoped that large audiences will patronize the efforts of the boys who have given so much pleasure on former occasions. The winning choir of the W. H. Wilkerson Shield will sing several numbers, conducted by Brother J. G. Keogh.

Alexandrine has designed a modern back stitching on this new "grain" suede pull-on glove.

QUAKER CORN FLAKES

Always Crisp
Always Most Delicious

Until you have tried Quaker Corn Flakes, you have missed the perfect corn flakes. We guarantee they are the best flavoured you have ever tasted.

Read the guarantee on the seal on every package. It is made by the world's largest cereal millers, famous for half a century as the millers of Quaker Oats. Served with cream or milk, or with fruit, fresh or cooked, Quaker Corn Flakes make a delicious, wholesome dish. Easy to serve for breakfast, lunch or supper, after school or as a bite before going to bed.

Because triple-sealed and wax-wrapped, the sturdy Quaker package keeps out all moisture and preserves all the crispness and fine flavour.

And besides—packages contain coupons with which you can secure high quality silverware and other household and personal articles you need.

SCRUMPTIOUS—
that's what you'll say

If you do not agree that this is the best flavoured corn flakes you ever used, write us and we will gladly remit you the cost of the package. The Quaker Oats Company

This money-back offer on every package

Quaker Corn Flakes

MADE BY THE MILLERS OF QUAKER OATS

Liver Is Recruit To Health Foods

The longest railway run is from Riga to Vladivostok, 6,800 miles.

With liver standing so high in the opinion of many doctors, perhaps a few recipes for preparing the dish will be welcome.

Calves' liver, of course, is the tenderest and most delicately flavored but beef, lamb or even pig is quite as beneficial and much lower in price. If we are eating liver for the good it can do us and not because it tickles our palates we can choose the cheaper varieties and know we are deriving just as much good.

If the average housewife serving the average healthy family will include liver in her menus once a week, she will do much toward maintaining the health of her family as well as adding variety to her meals.

When a physician prescribes a liberal use of liver in treating anemia, he usually has some suggestions about special preparation. If he is not combining some other diet with this treatment the patient usually can eat the liver cooked as he prefers it.

Liver, since it's lacking in fat, is excellent for a reducing diet and has a laxative effect with some people. It is a general healthful food, and is a fair source of protein.

If beef liver is used it should be parboiled for fifteen or twenty minutes before cooking.

LIVER AND SPINACH LOAF

One pound liver, 1 cup stale bread-crumbs, 1-3 cup cream, 1 tablespoon butter, 4 tablespoons minced onion, 1 teaspoon salt, 1/4 teaspoon pepper, 2 cups cooked spinach, 2 hard cooked eggs.

Wipe liver carefully with a damp cloth. Put into a kettle, add boiling water to cover and simmer at the boiling point until tender. Put through food chopper, using fine knife. Soak bread in cream and cook onion in butter until slightly browned. Add to chopped liver with softened bread-crumbs, salt and pepper. Mix well. Put a layer of eggs cut in slices into a well-buttered mold. Add liver mixture and cover with a layer of spinach. Press firmly and cover mold with buttered paper. Put into a larger pan of hot water and bake in a moderate oven for thirty minutes or until firm. Turn out onto a hot platter and serve with cream or mushroom sauce.

This is an excellent recipe to use when calves liver is not available.

Trouser Skirt

A new tennis frock in almond green crepe has its accordin pleated skirt split down the front, revealing a little matching trouser when Milady runs.

The Record

Sylvia: Good-bye, mother! Mother: Wait a minute, dear. Please sign the visitors' book before you go.

Tokio, Japan, has one store for every twenty-eight inhabitants.

Quick Pile Relief

Dr. Leonhardt's Hem-Roid is guaranteed to banish any form of Pile misery, or money back. It gives quick action even in old stubborn cases. Hem-Roid is a harmless tablet that removes blood congestion in the lower bowel—the cause of piles. It brings relief quickly and safely or costs nothing. MacFarlane Drug Co., Vancouver Drug Co., and druggists everywhere sell it with this guarantee. (Adv.)

COMING SIR HALL CAINE'S "The Bondman"

"Carry On!" MAY 27

Large Entry List For School Sports To Be Held May 23

Hundreds of Young Athletes To Take Part In Big Event

Forty-three Races Included in Programme for Annual Athletic Meet at Willows; Field Events Next Monday and Tuesday; Keen Competition Expected in All Races; Sir James Douglas and George Jay Schools Will Defend Senior and Junior Championships Respectively; Entry List Announced.

Hundreds of young track athletes from the city's eighteen grade schools will compete in the Victoria and District School Sports at the Willows Park on May 23. Forty-one races will be held, the first starting at 2 o'clock. Every year this day proves one of the outstanding events among the activities of local schools and draws thousands of spectators to the Willows oval, where the young runners strive their utmost to uphold the honor of their respective schools.

SCHOOL LETTERS

As in previous years, the different competitors will be distinguished by the letter given to their school. These will be as follows: Bank Street (A), Burnside (B), Girls' Central (C), Central (D), Sir James Douglas (E), Esquimalt (F), George Jay (G), Beacon Hill (H), Margaret Jenkins (J), Kingston Street (K), Oaklands (O), South Park (P), Quadra Primary (Q), Spring Ridge (R), Victoria West (V), North Ward (W) and Model (M).

In order to eliminate delays during the meet, the field events will be held on Monday and Tuesday, when the different contestants will compete for high jump, broad jump, hop-step-and-jump and tug-of-war titles. The finals of the tug-of-war will be held on the field at the conclusion of the track programme.

HAVE BEEN TRAINING

For several weeks the teachers of the different schools have been coaching their pupils in the different events, and have brought them up to a good standard.

The ages of the racers range from six to sixteen, with intermediary classes for the different ages.

Last year some exceptionally keen competition was shown by the older boys and girls, and the younger ones manifested great enthusiasm in their events and sped along the course as fast as their legs would carry them.

Through the races for young boys and girls will be short, those for the older competitors will be standard distances, including 100-yard, 220-yard and quarter-mile sprints.

CHALLENGE CUPS

Challenge cups are awarded to the schools taking first places in aggregate points, both in senior and junior sections.

Prizes will also be awarded to the first, second and third place competitors in the finals of each event.

Sir James Douglas now holds the Mitchell and Duncan Cup, emblematic of senior school championship, while George Jay School possesses the Junior Challenge Cup.

OFFICIALS

The officials in charge of the meet are as follows: Judges of track events, George Jay (chairman), Alex. Peden, W. C. Moreby, G. A. A. Heiden; competitors' enclosure, J. Mackenzie, J. Dee, with representatives from each school staff; starter, H. L. Smith; assistant starters, W. H. Wilson (chairman), W. H. Muncy, R. Kipling, Capt. W. Brown; judges of field events, G. H. Bevan-Pritchard (chairman), A. T. Hunkin, H. S. Hurn, Miss E. Hadow; recorders, L. Macrae (chairman), L. Clarke, W. Macdonald; ground and track committee, W. H. Binns (chairman), D. S. Cameron, A. H. Marlow, W. Plenderleith, R. Goldfinch; prize committee, Misses M. James (chairman), S. King, F. McNeill, and W. Skilling; N. Grubb; reception committee, J. M. Campbell (chairman), W. H. Gee; marshal, T. W. Hall; assistant marshal, W. D. Knott; programme and entries, K. Waite; secretary, N. Forbes.

PROGRAMME

The programme of events, with the names of the competitors and their school letters, follows:

50 YARDS—GIRLS UNDER 9
First Heat
Phyllis Hobbs (a), Margaret Prentice (b), Ayako Yoneda (c), Doreen Lewis (d), Eva Elston (e), Isabelle Dixon (f), Rosemond Smart (h), and Peggy White (j).

Second Heat
Enid Watson (k), Mabel Viggers (a), Winnie Jordan (q), Fumiko Kondo (r), Isabel McAlpine (l), Ruth Ritchie (p), Ruth Boyd (w), and Betty McKay (v).

First three in each heat will run in final.

50 YARDS—BOYS UNDER 9
First Heat
Melville Lundy (a), Donald Smith (b), L. Holburn (c), Sydney Randall (q), Blair Brown (e), Gordon Heater (f), Harold Prescott (h), and Don Haukh (j).

Second Heat
Robert Mason (k), Harry Morrison (o), Bobby Phipps (c), William Miller (p), Norman Miller (r), Dick Marsh (v), Tom Barton (w), and Jack Horner (m).

First three in each heat will run in final.

50 YARDS—GIRLS UNDER 8
First Heat
May Worledge (a), Margaret Harknett (q), Ivy Johnson (c), Bernice Brydges (d), Phyllis Sutton (e), Ruth Jardine (h), Joyce Scourah (j), and Ella Shadforth (k).

Second Heat
Florence Kennedy (o), Phyllis Stewart (q), Rose Wong (p), Pearl McMinoy (r), Eloise Bishop (v), Ethel Wong (w), and Jean Mitchell (m).

First three in each heat will run in final.

50 YARDS—BOYS UNDER 8
First Heat
Howard Woodburn (a), John Swainson (b), M. Whillan (c), Charles Prior (d), Jack Place (e), Ray Barnes (h), Jack Graham (j), and Teddy Carr (k).

Second Heat
Howard Woodburn (a), John Swainson (b), M. Whillan (c), Charles Prior (d), Jack Place (e), Ray Barnes (h), Jack Graham (j), and Teddy Carr (k).

First three in each heat will run in final.

50 YARDS—BOYS UNDER 8
First Heat
Howard Woodburn (a), John Swainson (b), M. Whillan (c), Charles Prior (d), Jack Place (e), Ray Barnes (h), Jack Graham (j), and Teddy Carr (k).

Second Heat
Howard Woodburn (a), John Swainson (b), M. Whillan (c), Charles Prior (d), Jack Place (e), Ray Barnes (h), Jack Graham (j), and Teddy Carr (k).

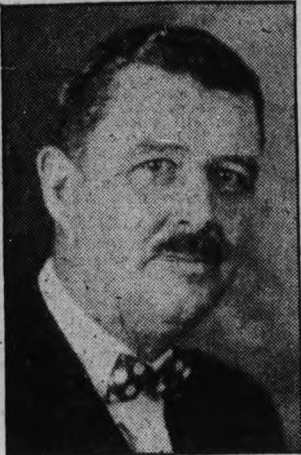

VICTORIA MEMBERS OF CANADA'S BISLEY TEAM

SGT. J. H. REGAN

LIEUT. D. FRYE

MASTER-GUNNER. H. COLLINGS

Local riflemen who have been selected on the team to represent Canada at the big rifle meet at Bisley this year. All three are veteran marksmen and are counted on being well up in the scores at the monster Empire shoot. They are getting in some good practice every week at Heals' Range and will be in the best of shape for their sailing to England.

Ladies' Softball Teams Will Open Season On May 31

Friday, May 31, is the date set by the Ladies' Softball League as opening day. Rainbows and Axions are the teams chosen to lift the curtain. Both teams are well-known in athletic circles, and last year they put up some splendid exhibitions for softball fans. The league officials announce six teams will compete. Hudson's Bay and Esquimalt both entered teams at the last meeting, and with Rainbows, Harmony, New Method and Axions, of last year's league, a good season is assured.

Joyce Wethered Will Meet Glenna Collett in Finals For British Golf Title

St. Andrews, Scotland, May 16.—Joyce Wethered, foremost English lady player, and Glenna Collett, U.S. women's champion, meet to-morrow in a 36-hole contest that will decide the British women's golf champion. Miss Wethered already has won the British title on three occasions. Both Miss Collett and Miss Wethered advanced into the final by two victories to-day. In her semi-final contests, Glenna defeated Doris Park, Scotland, four and three, and Joyce followed by winning over Edith Leitch Guedalla, five up and four to play.

SUN BOTHERS "BUNIONERS" M'DONALD TO BE FAVORITE

Majority of Runners Forced to Complete Yesterday's Lap in a Walk

Anson, Texas, May 16.—Speeding over the rough roads of Texas, beneath a blazing sun, John Salo, Pasajic, N.J., captured the forty-sixth lap of C. C. Fyfe's bunion Derby yesterday and carried nineteen minutes from the leadership of Pete Gavuzzi of England, leader in elapsed time. Salo ran the 39.4 miles from Albany, Tex., to Anson in 5:08.05, reducing Gavuzzi's margin to 1 hour 10 minutes and 45 seconds. Gavuzzi was fourth yesterday. Herbert Hedeman, fifty-five, New York, oldest man in the race, tied Sam Richmond, New York, winner of Tuesday's lap, for second. Paul Simpson, Burlington, N.C., was fifth, and Gusto Umek, Italy, was sixth.

GRANVILLE SEVENTH
Canada's representative, Philip Granville, Hamilton, Ont., finished in a triple tie for seventh place yesterday. He ran the 39.4 miles from Albany in 6:27.50, tied with Guy Shields of Picher, Okla., and M. B. McNamara of Australia. He remains in sixth place in elapsed time.

The sun slowed the athletes considerably. Many of them walked much of the distance.

The first fifteen in elapsed time to-night were:

Pete Gavuzzi, England, 3:06.19.47.
John Salo, Pasajic, N.J., 3:07.30.32.
Gusto Umek, Italy, 3:21.35.16.
Paul Simpson, Burlington, N.C., 3:34.53.33.
Sam Richmond, New York, 3:36.56.55.
Philip Granville, Hamilton, Ont., 3:45.05.15.
M. B. McNamara, Australia, 3:48.24.27.
Harry Abramowitz, New York, 3:51.39.02.
Herbert Hedeman, New York, 3:56.40.20.
Mike Joyce, Cleveland, 4:03.36.14.
Elmer Harbino, Santa Rosa, Cal., 4:30.34.03.
Guy Shields, Picher, Okla., 4:31.03.25.
George Rehayn, Germany, 4:52.29.30.
Pat Harrison, Sullivan, Mo., 4:57.41.52.
Joe Spangler, New York, 4:59.50.08.

TILlicUMS TAKE LEAD
The Tillicums went into the lead for the first time in the fourth when Cann clouted the ball over the fence. No runs were scored in the fifth, but the Tillicums went on the rampage again in the sixth and three runners crossed the plate. In the seventh frame the Eagles scored their last run.

Cann was touched for eight hits, while he struck out six. Holmes allowed eleven hits, including four doubles and a home run, while he struck out six.

On Monday night Sidney will make their official debut in the league by opposing the Sons of Canada, last year's champions.

The box score follows:

Eagles	AB	R	H	P	A	E
Rutledge, ss	4	1	3	1	1	2
Brynjolfsson, 1b	4	0	2	7	0	1
Dunc, 2b	4	0	2	0	0	0

Summary—Home run, Cann; two-base hits, Hilton (2), Rutledge (2), Dunnnett, Green; sacrifice hits, Craig, Green, McLaren, Holmes; stolen bases, Brynjolfsson, McDonald, Craig, Doherty; McLaren; struck out by Cann 6, by S.M. Durlin, Garrison 3, off Cann 3, off Holmes 3; left on base, Sons of Canada 5, Tillicums 2. Umpires, Moore and McGregor. Time of game, 1:20.

Rifle Shooting
Sergt. Regan led the marksmen shooting at the official Bisley target during the midweek shoot of the Victoria and District Military Rifle Association yesterday afternoon. He was closely followed by Master-Gunner Collings and Lieut. Fyfe.

Riflemen not on the Bisley team used the regular D.C.R.A. targets.

MARINES TO SHOOT
On Monday afternoon a squad of marksmen from the visiting R.M.S. Colombo will shoot against a team from the Princess Patricia's Canadian Light Infantry and the Royal Canadian Navy in a friendly competition at Heals' Range.

The conditions governing this match state that no slings must be used and sighting must be done only with open sights. The range will be 200, 500 and 800 yards. One sighter and seven rounds will be fired at each range. Service targets will be used.

Owing to the trickiness of Heals' Range the match will be a fine test for the teams.

Complete scores for yesterday's shoot are as follows:

Bisley targets: 200 500 600 TL
Sgt. Regan, Can. Scot. 31 34 31—96
Mr. Collings, Can. Scot. 32 32 31—95
Lieut. Fyfe, Can. Scot. 33 32 28—93
D.C.R.A. targets:
Cpl. Redgrave, P.C.L.I. 27 33 24—84
L. Cpl. Conroy, G.A.I. 30 31 33—94
Capt. Hanson, Can. Scot. 32 29 34—95
Pte. F. Boyd, Can. Scot. 33 32 28—93
S.M. Ruffell, Garrison 29 33 30—92
P.O. Taylor, R.C.N. 29 30 30—89
Capt. Robinson, 8th Regt. 29 30 32—91
Gur, 30 30 30
S.M. Durlin, Garrison 31 30 28—89
Sgt. Hooper, Garrison 31 32 27—90
Lieut. Weller, Can. Scot. 28 30 28—86
Pte. Shroobrev, Garrison 29 32 27—88
Pte. Evans, Can. Scot. 28 32 27—87

Dempsey Offered \$500,000 To Meet Norwegian Heavy

Chicago, May 16.—Paddy Harmon, president of the Chicago Stadium Corporation, to-day offered Jack Dempsey \$500,000 to meet Otto Von Porat, Norwegian heavyweight, in fifteen-round bout out doors during the summer.

DUNCAN SINKS LONG PUTT TO DEFEAT HAGEN

British Star Scores Second Victory Over "The Hag"; Score Is One Up

Horton Smith and Ed Dudley Defeated; Hagen to Play With Prince of Wales

Moortown, May 16.—Walter Hagen and three of his compatriots were defeated to-day in the first two rounds of the Yorkshire Evening News Thousand Guinea professional golf tournament, leaving the task of upholding United States golfing prestige in the hands of Leo Diegel and Joe Turnesa. Only these two invaders survived the mighty blows dealt by British veterans and their own comrades, too.

George Duncan, who headed the British Ryder Cup team that conquered the United States squad here a fortnight ago, downed Hagen one up. Duncan sank a forty-foot putt at the home hole to beat the American star for the second time. He defeated Hagen by an overwhelming score in the Ryder Cup matches.

To-day Diegel defeated his teammate Al Watrous, while Turnesa conquered Ernest Whitcombe.

Horton Smith lost to T. Barber and E. Dudley to S. Gaynor.

Moortown, Eng., May 16.—British and United States golfing society was set afire to-day by the announcement that the heir to the British throne and king of British golf, would play a golf match during the week-end.

By invitation of the Prince of Wales, Walter Hagen will play his Royal Highness Sunday on some course not far from London, possibly Sunningdale. Telling the Associated Press of the unique event, Hagen expressed a lively appreciation of the Prince's invitation and said he regarded it as an unusual courtesy.

Since he began gathering British links garlands, the champion has chatted with the Prince several times, and it was from his hands he received the cup at Sandwich last year after winning the open championship.

COLWOOD CLUB NAMES BOARD

J. H. "Mickey" Richardson Re-elected Captain of Local Golf Club

J. H. "Mickey" Richardson was re-elected captain of the Colwood Golf Club at the annual meeting held last night. This will be "Mickey's" second term, he having taken over the reins of captaincy for the first time last year. J. A. Sayward was re-elected president. Considerable discussion took place on the new clubhouse, which is expected will be ready for occupation near the end of the summer. All the plans have been drafted and construction work will start in the near future.

The board of directors elected last night follow: J. A. Sayward, J. H. Richardson, Sir Frank Barnard, A. C. Flumerfelt, J. A. Lindsey, B. S. Heisterman, Capt. J. W. Truop, Alderman J. L. Atwood, A. D. Strath and T. S. McPherson.

A programme of activities for the year was drawn up during the evening. This will include handicap races for both men and women at the Crystal Garden every Monday evening at 8:30 o'clock.

Gwen Bailey presented a cup for competition among the ladies, while Ken Darbyshire offered one for the winners of the men's races.

The handicaps will commence next Monday.

Following the meeting a social evening was enjoyed.

Old Country Cricket

London, May 16.—The bowlers continued to have the upper hand in English cricket matches yesterday. Batmen everywhere found it impossible to settle down, with the conditions favoring the attack.

Among the fine bowling accomplishments were the four wickets for first runs by Penley, for Surrey against Sussex; Woolley's three wickets for five runs, for Kent against Leicestershire; Kennedy's nine wickets for forty-six runs, for Hampshire against Derbyshire; Robbins's eight wickets for sixty-nine runs for Middlesex against Gloucestershire; and Goddard's seven wickets for twenty-five runs for Gloucestershire.

Scores at the end of the day were: At Lords—Gloucestershire 69, Middlesex 70.

At Kennington Oval—Sussex 60, Surrey 8 runs for no wickets.

At Cardiff—Glamorgan 145, Somersetshire 46 runs for three wickets.

At Leicester—Leicestershire 99, Kent 133.

At Portsmouth—Hants 110, Derbyshire 92.

At Northampton—Northants 177, Warwickshire 55 runs for five wickets.

At Cambridge—Nottinghamshire 376, Leicestershire 46 runs for three wickets.

At Oxford—Oxford 152, South Africa 180 for four wickets.

McGraw Returns To Helm And Giants Take Bad Licking

Back at His Customary Place in Polo Grounds Yesterday Manager of New York Club Watches Cincinnati Walk Over His Team, 12-3; Stripp Knocks Out Two Home Runs and Swanson One; Chicago and St. Louis Both Turn in Victories; Lou Gehrig Poles Out Eighth Home Run But Yankees Suffer Fourth Straight Loss, 7-1; American League Race Tightens Up.

John McGraw did not know what a break he was getting when the New York Giants put him to bed. After ten pleasantly idle afternoons, he discovered yesterday that he got well too soon. Back at his customary haunt within the Polo Grounds, the Giant chieftain saw the frolicsome Cincinnati Reds slip away with the last remains of a two-game series by a score of 12-3.

If Pittsburgh gave him chills and fever, the least he can expect now is to be an invalid for life.

Joseph Stripp, recently from Columbus, outranged Frederick Fitzsimmons with two home runs, while Swanson, from the Pacific Coast, contented himself with one.

The Chicago Cubs defeated the Braves, 7-4, at Boston and the St. Louis Cardinals punched Philadelphia, 4-1. These two contenders for the pennant remained on even terms at the head of the National League parade, with a hand-to-hand between themselves apparently the only thing left to pry them apart.

Babe Herman's home run off Grimes in the fifth with two Robins on base tied the score at 4-4, but Pittsburgh soon regained command to win eventually by 9-4 over Brooklyn.

The New York Yankees contented themselves with Lou Gehrig's eighth homer as Cleveland pounded George Piggas and three other Yankee pitchers, to win 7-1. Joe Shauts twisted the champions into knots with some smart scullery shots.

The St. Louis Browns shaded the Washington Senators by 5-3 in the get-away game, and the Chicago White Sox ripped their Red Hoes namesakes from Boston by 8-4.

Philadelphia head the champions by half a game, but the Browns are virtually one full game from the top in a virtual tie with the Detroit Tigers.

Harry Hellmuth butted himself into immobility against a ball held in the iron paw of Meade Cochrane in the ninth inning at Detroit yesterday, but conscious or unconscious, sprawled across the plate with the winning run. The score became 4-1 when Meade Cochrane, properly amazed by such tactics, let go of the ball after the umpire had called Hellmuth out.

Victoria Capitals To Field Strong Team

B.C. Champs Open Season Against Nanaimo On Sunday

Will Trot Out Stronger Team Than Last Year to Defend Provincial Senior B Championship; Norm Forbes, Jimmy Dangerfield and Sid Shaw, Formerly of Burnaby, Will Handle Pitching; Will Play Two Games Here on May 24 to Open Local Season; May Play Exhibition Game Saturday.

With a stronger team gathered together than that which won the British Columbia Senior B championship last year the Victoria Capitals, Victoria's entry in the Vancouver Island Baseball League, will usher in their season on Sunday at Nanaimo when they meet the Up-Islanders in the opening game of the season.

The Caps, who last year brought the first Provincial baseball championship to this city in many seasons, have been going through strenuous practices during the last few weeks and all members of the team are in first-class shape.

The Capitals are attempting to arrange an exhibition game for Saturday in order to give the team some real first-class practice in preparation for the opening tussle. A team may be brought over from Port Angeles.

UP-ISLAND TEAMS READY
All the Up-Island clubs are in shape and anxiously awaiting the league opening. A meeting was held in Nanaimo recently and the various club managers reported they have lined up strong teams and all hope to win the league title, although the local team is confident they can retain their laurels.

The official opening of the league in Victoria will take place on May 24, when a double-header will be staged at the Royal Athletic Park with Chemainus and Port Alberni performing in the league fixtures. It is expected that the former will play in the first game and the Ports in the afternoon battle.

Arrangements are also being made to bring in an outside team for two exhibition games on May 25. The United States coastguard patrol vessel Snohomish will be in port for the celebration and it is hoped to arrange two games with the vessel's nine.

These four games are being staged as a part of the May 24 celebration programme in conjunction with the Victoria Junior Chamber of Commerce.

Six teams are competing in the Island League, including clubs from Port Alberni, Courtenay, Nanaimo, Chemainus, Duncan and Victoria. The first three will compose the upper half of the league and the last three the lower. The three lower clubs will play a home and home series with the upper, while the three teams in each section will meet each other four times during the season. At the end of the season the leading teams in the two sections will play-off for the league championship.

HAVE SAME PLAYERS
The Capitals have signed all of their last year's players besides several new ones. The club will be managed by Doug Meyers, an old-time player, who has handled several Up-Island teams on their pitching staff the Caps will have Norm Forbes and Jimmy Danger-

He's Out To Win By Jimmy Thompson

To-day saw the opening of the Davis Cup games between the Canucks and the minions of Uncle Sam. The United States team has been changed considerably since last year. The United States team is headed by the popular Chicago boy, George Lott, and the Canadian team is led by Dr. Jack Wright, of Montreal.

The Canadian team ranking for this year by the Canadian Lawn Tennis Association is as follows: Dr. Jack Wright, 1; Crocker, 2; Ham, 4, and Rainville, 9.

The selection of the Canadian team was in accordance with expectations, as, although Rainville was not ranked in the first four on his 1924 record, it was known that he was a greatly improved player. In doubles with Willard Crocker, he shone during the latter part of last season and he has kept up vigorous training throughout the winter—something that the Toronto players, Ham and Nunna, have not been able to do.

field, who carried the brunt of the work last season, and Sid Shaw, formerly of Burnaby. Tommy Bowden and Art Minnis will handle the catching end of the battery. "Doc" Webster will be at first base and Herb Cummins at second. The shortstop position will be looked after by Jack McKenzie, while Norm Forbes will play third when he is not pitching. For the outfield there are Pete Sillaway, Ross Oatman, Roy Copas and Jack Curtis.

This will give the Caps a mighty strong team and one that is capable of holding its own with the best the Up-Island can offer.

The league schedule follows:
LOWER ISLAND
May 19—Duncan vs. Chemainus.
May 24—Victoria vs. Chemainus.
May 26—Chemainus vs. Victoria.
June 2—Duncan vs. Victoria.
June 22—Victoria vs. Duncan.
June 30—Duncan vs. Chemainus.
July 1—Chemainus vs. Duncan.
July 6—Victoria vs. Duncan.
July 14—Duncan vs. Victoria.
July 27—Victoria vs. Chemainus.
Aug. 4—Chemainus vs. Victoria.
Aug. 11—Chemainus vs. Chemainus.
INTERLEAGUE GAMES
May 19—Nanaimo vs. Victoria.
May 24—Victoria vs. Alberni.
May 24—Victoria vs. Chemainus.
May 26—Courtenay vs. Duncan.
June 2—Duncan vs. Courtenay.
June 9—Chemainus vs. Alberni.
June 23—Chemainus vs. Nanaimo.
June 30—Alberni vs. Victoria.
July 1—Courtenay vs. Victoria.
July 7—Alberni vs. Duncan.
July 14—Chemainus vs. Courtenay.
July 20—Victoria vs. Courtenay.
July 21—Nanaimo vs. Chemainus.
July 21—Duncan vs. Alberni.
July 28—Nanaimo vs. Duncan.
Aug. 3—Victoria vs. Nanaimo.
Aug. 6—Duncan vs. Nanaimo.
Aug. 18—Alberni vs. Chemainus.

The home team is the first mentioned and all league fixtures will be played on the diamonds of the first-mentioned clubs.

NAVY WILL PLAY BAYS IN FINAL
(Continued from page 8)

then Cozier brought the scoring to a close when he beat Restall with a hot shot to the corner.

Armstrong refereed. The teams were: Navy—Zanelli, Plummer, Barnes, C. White, Waitt, A. Whyte, Plummer, Roberts, Spridell, Robinson and Cozier.

Saanich, United—Restall, Blanco, Barry, Stonier, Burns, Tyson, Warring, Hawkes, Blanco, Tooby and Ralph.

The dreams of the Hudson's Bays were realized when they defeated Rennie yesterday. Both teams played good football.

Rennies started with an intensive attack on the Bays' goal. Percy Shrimpton and the Bays' backs were safe, however, and it was not long before the play changed ends. Taylor, Rennie's right winger, tried a long shot but the wind was too strong and carried the ball over the bar. It fell to Taylor, however, to score first blood, when he headed Bill Cull's cross into the net so fast that the goalie never saw it.

Bob Addie brought the score even again when he headed Bill Cull's cross into the net so fast that the goalie never saw it.

Play stayed in centre and then a few minutes before half-time Fish gave the Bays a one goal lead with a nice shot that Nex had trouble in judging.

PLAY TIGHTENS UP
Following the rest period play tightened up. The Bays forced two corners but both were lost in the wind. Rennie went on the offensive but Shrimpton was safe and let nothing through. About half way through the second half Cull boosted the Bays' total to three, beating Nex with a pretty shot. This advantage was short lived, however, as the bakers were awarded a foul just outside the penalty area. Al McKinnon took the kick and Davie added the finishing touches from five feet out. This brought the score to 3-2, and although Rennie tried hard for the tying goal time was too short.

Hudson's Bays—Shrimpton, Gardiner, Armstrong, Oakman, Woodley.

The teams were: Hudson's Bays—Shrimpton, Gardiner, Armstrong, Oakman, Woodley.

Minneapolis Company Reported Purchasers of Sound Ferry Lines

Deal Will Be One of Biggest in Maritime History of Seattle and Will Include Steamers Iroquois and Olympic Operating Out of Victoria; Foshy Company Already Owners of Another Sound Fleet.

Negotiations for the purchase of the business and properties of the Puget Sound Navigation Company, operators of twenty-six vessels serving twenty routes, are expected to be resumed in the near future by W. B. Foshy Company of Minneapolis, according to reports received in Victoria this morning from Seattle. The deal would involve more than \$3,000,000.

The Foshy interests recently purchased the Kitsap County Transportation Company and the Sound Ferry Lines, operating a fleet of twenty-three passenger, automobile ferry and freight vessels on Puget Sound at a figure approximating \$1,500,000.

Purchase of the Puget Sound Navigation Company would give the Foshy interests control of the passenger, automobile ferry and freight services of Puget Sound.

Ira Bronson, president of the Puget Sound Navigation Company, said today that although negotiations have been on for the sale of the company's business and properties to the W. B. Foshy Company, the deal had not been closed. Mr. Foshy was in Seattle six weeks ago in connection with the purchase, but nothing further had been done, he said.

It was reported that Foshy Company had made a flat offer of \$3,000,000 for the fleet and business of the Puget Sound Navigation Company.

The deal would be one of the largest of its kind in the maritime history of Seattle and would bring the two largest Puget Sound fleets under one control.

The sale of the Puget Sound Navigation Company's interests on Puget Sound to the Minneapolis Company would include the steamer Iroquois, now operating between Victoria and Seattle, and the motor ferry steamer Olympic which will commence service between Victoria and Port Angeles early next month.

Last Fall officials of the Puget Sound Navigation Company announced that a ship would be built for the night service between Victoria and Seattle, but since that time nothing about the proposed ship has been heard. It is now thought that the prospective sale of the company's interests delayed action.

WILL COMMENCE NEW FERRY RUN HERE JUNE 15

Motor Princess Will Inaugurate Sidney-Steveston Route on That Date

Princess Charlotte Scheduled to Take Alaska Service on July 30 After Mishap

The inaugural trip of the C.P.R. motor ferry steamer Princess on the new Sidney-Steveston route will be made on June 15, leaving Sidney at 9 o'clock on the morning of that day, according to announcement made this morning by Capt. Cyril D. Norout, manager of the B.C. Coast Service of the Canadian Pacific Railway.

The Motor Princess on her new route will make two round trips a day, leaving Sidney at 9 a.m. and 3 p.m., and leaving Steveston at 12.30 p.m. and 7 p.m. Arrivals at Sidney from Steveston will be at 3.30 p.m. and 10 p.m. and at Steveston from Sidney at 12 noon and 6.30 p.m.

The Motor Princess is at present tied up in the Inner Harbor being cleaned and painted in preparation for the coming tourist season. She will be docked early next week and on May 23 will enter the Nanaimo-Vancouver service with the Princess Elaine. She will remain on that route until entering the Sidney-Steveston run in the middle of June.

The Princess Charlotte now receiving engine repairs at the Esquimalt plant of Yarrows Limited will enter service on the Alaska run on July 30, sailing from Victoria on that date and from Vancouver the following day for Skagway. Work will be rushed on the Charlotte so that she will be ready to resume service on that date.

The Princess Charlotte was scheduled to take the Alaska run early in June, but the mishap to her engines prevented this. Her place will be taken by the Princess Adelaide, which, in company with the Princess Louise and the Princess Alice, will maintain the service until the Charlotte is ready.

Summer excursion fares to Eastern Canada and United States points on sale at Canadian National Ticket Office, 911 Government Street, effective May 22.

SHORTAGE OF BILLETS FOR AUSTRALIANS IS SUBJECT OF APPEAL

In a second appeal to the public today Mayor Herbert Anscomb draws attention to the intended arrival here of upwards of 150 boys of the Young Australia League on May 27, for whom billets have been promised. There are still many boys to be placed. The boys would have to be met between 3 p.m. and 5 p.m. on May 27, given dinner that evening, and after that bed and breakfast until the morning of May 29. Any citizens who are able to take one or more of the visiting Australians during the period are asked to get in touch with the Mayor's office. Mayor Anscomb spent most of the morning in a personal effort to place some of the boys, for whom the undertaking of billeting has definitely been made.

DOLLAR COMPANY WILL BUILD FOUR LINERS SHORTLY

San Francisco, May 16.—R. Stanley Dollar, vice-president and general manager of the Dollar Steamship Company, left here last night for Washington, where he will submit plans for four new liners to be built by the company in the near future. The plans are already complete and if the Government officials approve them specifications will be issued and bids called for within the next few weeks.

SIX SHIPS DUE OVER WEEK-END

Ruth Alexander, Empress Liner, Two President Ships and Jap Freighter Expected

The week-end will see a number of big deep sea passenger liners here, both inbound and outbound from the Orient and California. Commencing to-morrow night and continuing until Monday morning, there will be six ships in port.

On her first trip to Victoria since returning from her round-the-world voyage, the Pacific Steamship Company's liner Ruth Alexander is expected here to-morrow night from San Diego, Los Angeles and San Francisco. Up to an early hour this afternoon the local agent had received no word as to when she would dock here, but it is expected she will be along on schedule.

At 4 o'clock Saturday morning, the Canadian Pacific liner Empress of Russia is expected at the William Head quarantine station from ports in China, Japan and the Philippine Islands. She will be alongside the Rithet piers shortly after 6 o'clock.

The other arrival from the Orient on Saturday will be the N.Y.K. freighter Toyama Maru with more than 1,500 bales of raw silk for discharge at this port, one of the heaviest cargoes of the raw product ever to be left here. So far no exact time of arrival of the vessel has been received here, but A. H. Hebb, local agent, expects to hear from the captain of the vessel some time to-morrow.

OUTBOUND LINER

Outbound to ports in China, Japan and the Philippine Islands, the American Mail liner President Pierce is expected here from the Orient with a large passenger list and a capacity cargo. It is expected that she will dock about 7 o'clock to discharge 250 tons of local cargo.

On Monday morning the American Mail liner President Pierce is expected here from the Orient with a large passenger list and a capacity cargo. It is expected that she will dock about 7 o'clock to discharge 250 tons of local cargo.

FOREST FRIEND CLAIMS BEFORE ADMIRALTY NOW

Island Tug and Barge Company and Yarrows Limited Present Claims

Before Mr. Justice Martin in the Admiralty Court to-morrow claims against the barquentine Forest Friend will be heard, preferred by three sets of claimants for work done or sums alleged to be due. The sitting will open at 11 a.m. in the appeal court at the Courthouse.

One claim is preferred by the master of the sailer, Capt. Tindall, who seeks recovery of sums said to have been expended in disbursements, and due for wages. The Island Tug and Barge Company Limited and Yarrows Limited will present claims for towing and incidental work in connection with the handling of the Forest Friend at Esquimalt.

The barquentine has been lying at Esquimalt with a marshal's guard on board for some weeks now, after being libeled by various claimants.

Water—I say, waiter, this ham's bad. Waiter—But it was only cured yesterday, sir.

Dinner—Well, take it away. It's had a relapse.

California, the Ruth Alexander will not sail from Victoria for the South until 8 o'clock Sunday evening, instead of 9 o'clock Sunday morning. She will arrive from Seattle at 6 o'clock and will embark passengers here before sailing for the South.

On Monday morning the American Mail liner President Pierce is expected here from the Orient with a large passenger list and a capacity cargo. It is expected that she will dock about 7 o'clock to discharge 250 tons of local cargo.

No One Can Cure Rheumatism By Tying Wire About His Waist

By DR. MORRIS FISHBEIN

There are many cures for rheumatism as there are people with notions concerning the disease. Rheumatic complaints in the elderly are chronic. Such people tend to have periods of getting better and getting worse. As was mentioned in a previous article in this series, old people not infrequently can predict a change in the weather by the fact that the rheumatic joints hurt more than they did before; therefore they devise such strange cures for rheumatism as carrying buckeye or the back pockets tying a string around the leg, or putting a piece of corner wire around the waist.

As to their efficacy in the control of rheumatism, one of these cures is about as good as another, or to tell the truth—no good at all.

The rheumatic infection brings about inflammation of the tissues, which must be controlled from within the body. The physician prescribes remedies which decrease the pain and lessen the inflammation and give what aid can be given through external influences.

Particularly interesting is the development of quackery in relationship to magic of this type. Everyone knows about the old-time electric belts that used to be used for the treatment of rheumatism. They have practically disappeared from the American scene. A physician in Connecticut some years ago developed the idea that all sorts of rheumatism could be cured by putting little wire strings around the joints. For that notion there was no scientific support. The most recent devices are alleged magnetic collars hung around the neck, with the claim that they will magnetize the iron in the blood and thereby cure not only rheumatism, but other chronic complaints.

All of this is hokum, with no basis in scientific evidence. In every instance, the magical basis is the same. The person feels better because he wants to feel better and because it is the tendency of his disease to have periods during which he feels either better or worse. But when the charm is forgotten or the disease gets worse, the magic fails.

Pearl and moonstone are birth stones for June.

ELEPHANT STAMPEDE
IS BIG FEATURE OF
FINE JUNGLE PICTURE

"Simba," the motion picture record made by Mr. and Mrs. Martin Johnson, the famous explorers, during four years in the jungles of Africa, is one of the most exciting and thrilling films ever seen in this city. It holds not one dull minute from the time the Johnsons load the outfit for their long trek into the jungles up to the startling climax when half-naked natives, armed only with

Where To Go To-night

ON THE SCREEN
Capitol—"Simba."

Playhouse—"The Grain of Dust."
Coliseum—"The Case of Lena Smith."
Columbia—"The Foreign Legion."
ON THE STAGE
Coliseum—"Pop Goes the Weasel."
Crystal Garden—Swimming and Dancing.

spears, surround and kill full grown lions.
Marching across the screen comes antelopes, giraffes, zebras, rhinos, hippopotamuses, herds of elephants, leopards—all the denizens of the jungle, just as they are at home. And they are photographed with a clarity and against such wildly beautiful backgrounds that the value of the film is wonderfully enhanced.
Among the outstanding features of the picture are the charge of the infuriated rhino straight at Osa Johnson, who is forced to shoot him to save her own life; the stampede of a herd of elephants, seeking safety from a jungle fire, the swarms of ugly crocodiles infesting the rivers that the party was forced to cross; the gorgeous shots of running giraffes, of speeding antelopes and zebras; perfectly marvelous flashlight photos of lions and leopards; and above all, the scene which shows fourteen lions playing in a grassy glade like a lot of cats.

MYSTERY AUTHOR
APPEARS PERSONALLY
IN DOMINION FILM

S. S. Van Dine, the mysterious author of the most successful series of detective stories in modern fiction history, who thus far has shielded his identity behind his nom de plume, was persuaded by Paramount officials to appear before a motion picture camera.
Van Dine is seen on the screen for

the first time in "The Canary Murder Case," his famed mystery story which is showing at the Dominion Theatre all this week.
At first, loath to give the world at large an opportunity to discover his identity, the author, whose name has become a byword in the world of books through his detective stories during the last three years, finally consented to step in front of the camera lens.
The cast of "The Canary Murder Case" includes William Powell, as Philo Vance, the super-detective; Louise Brooks, James Hall, Jean Arthur, Charles Lane, Lawrence Grant and Gustav von Seyffertitz.

MISS TODD PLAYS
LEADING ROLE ON
COLISEUM STAGE

Miss Esther Todd, who has one of the leading roles in "Pop Goes the Weasel," the current stage attraction at the Coliseum Theatre by the Coliseum Players, under the direction of Raymond "Toby" Letich, gives a performance which has gained her further friends and admirers.
Miss Todd is cast as a daughter of a wealthy man who insists that she marry against her wish. She steadfastly refuses and in the hope of breaking her spirit, her father takes her away on a yacht. She escapes, however, and takes refuge in the home of a young man to whom she tells her troubles. He sides with her and together they fight against the proposed marriage, clashing in the end that the girl's fiancé is a crook and schemer. Miss Todd is a clever little actress. Tall and slim she is as pretty as she is graceful and has charming stage presence.
The screen attraction at the Coliseum is entitled "The Case of Lena Smith." Esther Ralston, famous star of stage and screen, has the leading role and gives one of the finest portrayals of her career. The settings of the picture are laid in Vienna.

FAMOUS NOVEL,
"THE BONDMAN,"
IS PICTURIZED

A bondsman in this country is one who puts up security for another person. But "The Bondsman" of Sir Hall Caine's famous novel is one who takes the place of another. It was on this custom that Sir Hall laid the basis of his famous story which has been made into a motion picture and comes to the Playhouse Theatre during the week of May 27. In the story Jason "The Bondsman" takes the place of his brother, who has been sentenced to death. Norman Kerry is the star and all of the scenes were photographed on the Isle of Man and in Sicily, where the story is laid.

OFFICE ROMANCE
FORMS PLOT FOR
PLAYHOUSE FILM

The world being full of stenographers and business men and full of business office romances, "The Grain of Dust," the new feature at the Playhouse Theatre, speaks in a language that many people understand. This Tiffany production is an adaptation by L. G. Rigby of David Graham Phillips' novel of the same title and it draws a comparison between man's emotions and the delicate mechanism of a watch—when a grain of dust gets into the wheels of a timepiece it throws the whole thing out of gear, and when a man gets an obsession for the wrong girl, she's the grain of dust that upsets his life.

Ricardo Cortez, to whom a lot of good roles have fallen in his career, has his greatest role as the engineer, an industrious, intelligent, talented and honest man who, under the spell of enchantment woven about him by a feminine rife with more sex appeal than brains, loses all sense of honor. Cortez shows a fine appreciation of emotional values and does a splendid piece of acting.

New Barley Grading
In Canada Is Urged

Ottawa, May 16.—If Canada desires to get into the higher class barley trade of Europe, it will have to entirely reorganize the grading system now in use in this country. This was the outstanding conclusion brought back by Professor P. J. Harrison of the Agricultural College at Winnipeg and Paul Breck, farmer of Kemnay, Man.
They gave evidence yesterday before the Commons agricultural committee following an extensive survey of marketing conditions for this grade in the various countries of Europe.

SUICIDE IN OREGON

Portland, Ore., May 16.—Hurling himself in front of an automobile, James Nichols, forty-three, prominent Baker, Ore., attorney, was killed last night. Police say he was suicide. Nichols had been a patient at a Portland sanatorium, recuperating from a nervous breakdown.

An opal, measuring 6½ by 2 inches when roughly dressed, and claimed to be the finest in the world, has been discovered in the gem-field of Lightning Ridge, Australia.

CITY HALL PLAN
IS VOTED DOWN
IN VANCOUVER

No New Building, Say Rate-payers: No Burrard Bridge; \$5,550,000 Voted
Vancouver, May 16.—By-laws calling for expenditure totaling \$5,550,000 were voted on favorably by Vancouver property owners yesterday. Other by-laws, providing for expenditures of \$4,925,000, failed to get the required three-fifths vote.

Among the by-laws adopted is one providing \$300,000 for an airport site. Others have to do with streets, roads, waterworks, sewers, park sites and schools.

The Burrard Street Bridge by-law, calling for \$3,000,000, and one for a new city hall costing \$1,000,000 were defeated.

Sums provided by by-laws approved include: New school buildings, \$800,000; streets and roads, emergency, \$500,000; streets, new thoroughfares, \$500,000; paving and sidewalks, \$750,000; clearing and grading streets, \$250,000; waterworks extensions, \$750,000; sewer extensions, \$1,000,000; school sites, \$50,000; schools, heating and ventilating, \$50,000; school grounds, improvements, \$50,000; branch libraries, \$175,000.

When your
Children Cry
for It

Mothers, who take one simple precaution, are seldom worried. With a bottle of Fletcher's Castoria in the house they can do what their doctor would tell them to do, when baby is fretful, feverish, colicky, constipated or stuffed-up with cold—give a few drops of this pure vegetable, pleasant-tasting preparation. It comforts Baby and soothes him to sleep in a jiffy. It's perfectly safe for the youngest infant. Use it freely—and as often as needed, specialists advise. A more liberal dose is all it takes to comfort and relieve older children, when feverishness, bad breath, no appetite, colds, etc., show they need a good purging. The mark of genuine Castoria is the Fletcher signature on the wrapper. Look for it to avoid imitations.

Fletcher's
CASTORIAK. OF P. LEADERS
MEET AT TRAIL

Trail, B.C., May 16.—Continuing its work of promoting musical education, the Grand Lodge of the Knights of Pythias, meeting here yesterday afternoon, made its usual grant to the B.C. Musical Festival, which operates under its auspices.

Discussion yesterday afternoon centered about the question of annual grand lodge meetings, it being debated whether it was in the best interests

of the order to hold grand lodge meetings annually or once in two years. The fraternal objects of the order, it was held, would be promoted to much greater advantage by annual meetings, and it was decided the present custom would be continued.

Of twenty-eight temples in British Columbia, twenty-seven were represented at the Pythian Sisters' grand lodge sessions. Business yesterday consisted mainly of greetings and reports of committees. Officers will be elected to-day.

The grand degree was conferred on twenty-four past chiefs, and Mr. Davis of Penticton, supreme manager, was given supreme honors and congratulations.

Effective May 12, the afternoon boat to Vancouver will leave Victoria daily at 1.45.

POULTRY FEED SOON TO COST LESS IN B.C.

McGeer Tells Grain Commission at Vancouver Alberta Pool Moving

Vancouver, May 16.—With the object of supplying British Columbia poultry farmers with feed grain at prices lower than those now charged, the Alberta Wheat Pool is turning its attention to that phase of marketing, and is expected to institute a service which will benefit the poultry industry, particularly in the Fraser River Valley.

This was a statement made by G. G. McGeer, K.C., before the Saskatchewan Grain Inquiry Commission at its session here yesterday. The sitting was devoted to the hearing of witnesses from among British Columbia poultry raisers. Mr. McGeer, representing British Columbia farmers, intimated he would call witnesses to bear out his announcement regarding the plans of the Wheat Pool.

POULTRY MEN HEARD

During yesterday forenoon's session two farmers who had retired from the prairies to raise poultry in the Fraser Valley painted a gloomy picture of present conditions in the industry. They agreed that without cheaper feed the British Columbia chicken farmers would face ruin.

Arthur Worsley, ex-navy man, who spent four crop seasons on an Alberta wheat farm before coming to British Columbia, told the commissioners feed for which he had received eighty cents a hundred pounds when he grew it in Alberta, cost him between \$2.40 and \$2.75 now when he has it delivered in sacks at his Port Kells farm in the Fraser Valley.

READY TO SELL

"Give me fifty cents on the dollar and watch me go!"

That was the answer returned by Richard W. Holland, veteran businessman, who now operates a poultry ranch at Port Haney, when he was asked yesterday afternoon if he would sell out for a price equivalent to his original investment. Mr. McGeer, conducted the examination of Mr. Holland and other witnesses.

After telling the commissioners how he had gone into the poultry-raising industry with an investment of \$43,000, and found he could not make a living by selling eggs and small fowl, Mr. Holland explained he had been able to make some return by breeding. He said he had come into the business as a "quaker," and now made money by stocking the farms for new "suckers." If the rates on feed and the costs of the farmers could be brought down, the witness said, farmers in the Fraser Valley could save a million and a half dollars a year. He estimated there were 2,000,000 laying hens in British Columbia.

MANY QUIT BUSINESS

Mr. Holland expressed the belief that situations similar to his own were the lot of most poultry raisers in British Columbia. Hundreds had gone out of business. He said the Japanese were invading this industry just as they had the fruit-growing lines.

The witness said a University of British Columbia survey of 100 farms in the Province showed the average cost of production of eggs was 34 cents a dozen. The average price was between 30 cents and 32 cents.

He expressed the belief a reduction in the price of feed by \$14 a ton from \$14 to \$50 a ton, would mean a "great bound" for the whole industry. It would put the British Columbia poultry raisers in a position to meet world competition.

Cross-examining the witness, E. E. Buckenfield brought out the point that in British Columbia dealers said the grades five and six off wheat as feed cost one and two cents. He explained the Wheat Pool purposed to ship in feed grades which are below the five and six wheat grades.

William Bothwell of Surrey and R. J. Denney were other witnesses.

RAILROAD COSTS

Evidence was introduced by Mr. McGeer, K.C., to show the \$13.70 cost of getting each rail car switched from Port Mann, twenty miles from this city, to the wharves here is an added charge to the price on all grain cars from the prairies for Vancouver.

Pender Island

At the recent meeting of the executive of the Farmers' Institute, held at the home of J. S. Stigings, it was decided to hold a junior gathering competition. Temporary plans were also made for the annual institute picnic to be held during July, the date to be determined later.

A large crowd turned out to see the moving pictures shown in Hope Bay Hall on Monday evening under the auspices of the Canadian Forestry Association. Mr. Antfield, the lecturer, who was given hearty applause for the pleasant entertainment, was assisted at the machine by C. Mulcahy, local forest ranger.

Miss Hilda Paley of Vancouver was a guest of Miss Jean Brackett last week, returning home on Saturday.

P. L. Edie of Springfield, Mass. spent a few days with Mr. and Mrs. A. H. Menzies last week on his return from a world tour.

Mr. and Mrs. D. G. Macdonald and son, Ronald, and Mrs. Macdonald Sr. returned here on Saturday for the summer months.

Mrs. Rea of Vancouver has been visiting her daughter, Mrs. F. G. Ebbings, who returned with her to Vancouver on Tuesday for a short holiday.

The pupils of senior division, in charge of Miss Jean Graham and Miss M. McIntyre, enjoyed a hike up Prospect Hill on Saturday afternoon.

Mrs. Ida Morrison has returned to the island after having spent the past two months in Victoria. She was accompanied by Mrs. Crosby, who will visit here with her for some time, at Mrs. Menzies' St.

Master George MacRae, of Vancouver, is spending the summer with his grandparents, Mr. and Mrs. James Simpson, Otter Bay.

Mr. Bowerman Sr. and daughter, Mrs. C. B. Brackett, with her infant son, left last Tuesday to visit their daughter and sister, Mrs. D. MacDougall, at Barriere, B.C.

WILL SPEAK AT ANNUAL MEETING OF "Y" TO-NIGHT

FRANK BAYLEY

vice-president and member of the board of directors of the Seattle Y.M.C.A., who will speak on "What Modern Youth Demands and What It Means" at the annual meeting of the local association to-night. Reports from the different committees will be submitted at the meeting and other business will receive attention.

NEW POTATOES MUST BE RIPE

Most housewives welcome new potatoes in the Spring as a relief from the old ones which have lost much through long storage.

However, beware of unripe or immature potatoes. Their starch grains have not reached maturity and are difficult to digest, so children should not be given new potatoes while the skin is easily scraped off. New potatoes are richer in vitamin C than those which have been stored through the Winter months.

RELIEF FROM GAS STOMACH PAINS DIZZINESS

The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles, you can't be well if your digestion is bad; you are likely to get sick unless you relish food and digest it properly.

Tanlac has a wonderful record as relief from digestive troubles, even those of years' standing.

Mrs. George Bell, of 22 King Street, London, Ont., writes as follows:

"I had suffered for years with stomach trouble, gas would form and bloat me up so I could hardly catch my breath. My nerves were shattered; I did not sleep, became weak and rundown, and spent enough on medicines to furnish a home."

"Two months after starting Tanlac, however, I had gained eleven pounds and was entirely free of indigestion. Now I have no gas and no pains in my stomach. The headaches have disappeared. My nerves are calm. I sleep like a child, am always ready for meals, and my housework seems like play to me."

Whenever it's at all possible, potatoes should be cooked in their "jackets." Baked potatoes are the most desirable since the intense heat of baking makes them easily digested and the mineral content is preserved.

Steamed potatoes come next in the scale of desirability. None of the ash constituents are lost in the water as in boiling. Potatoes do not lose their color during steaming as the green vegetables do, so there is no drawback to this method.

As with all other vegetables, care should be taken that potatoes are not overcooked. Too often the good of potatoes is cooked away and the mineral matter thrown down the sink, leaving only a source of bulk and a carrier for fat as the value of the vegetable when it appears on the table.

Although macaroni, spaghetti, rice and noodles are often used as potato substitutes, they are not true substitutes. Potatoes furnish mineral salts and vitamins as well as starch, while the other articles are really refined cereals and lacking in the valuable nutrients found in the potato.

POTATOES IN PARSLEY BUTTER
Steam one pound of small potatoes in their jackets until tender. Remove skins and sprinkle lightly with salt.

Three tablespoons butter, 2 tablespoons minced parsley, 1/2 teaspoon onion juice, 1/2 teaspoon salt, 1/2 teaspoon pepper.

Melt butter, add remaining ingredients and add hot steamed potatoes. Shake until each potato is covered with butter and serve at once.

If large potatoes are used, they should be cut in halves.

C.N.R. BRANCH PLANS APPROVED

Senate Votes All Bills For Extension Programme

Ottawa, May 15.—All Canadian National Railway branch lines on the three-year extension programme were approved by the railway committee of the Senate yesterday.

A measure authorizing the acquisition of Quebec, Montreal & Southern Railway by the Canadian National also was passed.

The Toronto Terminals Railway Company measure, granting an extension of time of three years for completion of the Toronto viaduct work, was approved.

Senator G. D. Robertson, Ottawa, presided as chairman of railways and canals and predicted the two great railways involved would certainly develop a plan for giving the Peace River an outlet to the Pacific.

Third reading was given the branch measure.

Bills which provide for the acquisition by the Canadian National of a number of roads in the Maritime Provinces and Quebec were given final approval.

All the blood in your body has to go through your lungs 2,000 times each day.

Electricity to-day is estimated to be fifty per cent below pre-war levels when figured on a cost-of-living basis.

OBITUARY

The remains of the late Martin Anderson, who was accidentally killed at Fort Renfrew on Monday last, were forwarded yesterday afternoon to Vancouver, where the funeral will take place at Center & Hannah's Funeral Chapel. The remains will be laid to rest in the family plot in Vancouver.

Thomas Lynburn passed away this morning at the Aged Men's Home, aged sixty-nine years. He was born in Glasgow, Scotland. The remains are resting at the B.C. Funeral Chapel pending burial arrangements.

The funeral of the late James McConnell, who passed away at the Jubilee Hospital yesterday, aged eighty years, will take place from the Sands Funeral Chapel at 2 o'clock, Rev. John Robson officiating. He is survived by his parents, Mr. and Mrs. James McConnell, of 322 Langford Street, Victoria; three brothers, Matthew, David and John McConnell, at home; four sisters, Mrs. F. E. King, of Vancouver; Mrs. A. Shanton, Jeanne Lanning, and Misses Mary and Dorothy P. McConnell, at home; also his grandmother, Mrs. Jane Booth, at the family residence.

Mrs. M. Goulding Dies in Seattle

The many friends and acquaintances in Victoria of Mrs. Mary A. Goulding will be shocked to hear of her sudden death in Seattle last yesterday afternoon. Mrs. Goulding was for many years a well-known resident of this city, but lived for the last four or five years in Seattle. Mrs. Goulding was only ill a few days and the news of her death came as a great shock.

Mrs. Goulding was born in England and resided in Victoria for many years. She was the widow of Capt. M. Goulding, well-known sea-faring man of the British Columbia coast. While in Victoria she was a member of St. Andrew's Cathedral. Interesting herself in all societies of the church.

The late Mrs. Goulding leaves to mourn her loss her mother, Mrs. Gray, residing at St. Joseph's Hospital in this city, two sisters, Mrs. W. P. Regan of Victoria, Sister Marianna in a convent in San Diego, and two brothers, Thomas Gray in Vancouver and Andrew Gray in California.

The remains will be brought to Victoria for interment. The funeral will take place from St. Andrew's Cathedral at a date to be announced later.

ROTARIANS WILL VISIT CLUB AT PORT TOWNSEND

Victoria Delegation to Attend Charter Meeting of U.S. Club; Reports Given

Appointment of a committee to make arrangements for delegation of Victoria Rotarians to attend the charter meeting of the Port Townsend club was made at the local club's luncheon in the Empress Hotel to-day. R. Mayhew, J. Fletcher and T. Goddard were named to take charge of this event. It is expected that a considerable representation from Victoria will attend the meeting in Port Townsend on June 1.

During the luncheon Mayor Herbert Ansonb appealed to the Rotarians for offers to billet the touring Australian boys who will arrive in the city on May 27.

CONFERENCE REPORTS

Reports on the address, "Men and Youth," the theme chosen by Dr. Kelly, president of the University of Idaho, at the District Rotary Conference at Vancouver two weeks ago, along with those of the community and service group and attendance and fellowship section, were given by Rotarians W. Terry, Walter Tuck and Rev. Montague Bruce, respectively.

In Dr. Kelly's address, Mr. Terry stated, the speaker looked to youth to promote welfare work among young boys. He had found other clubs working along the same lines as the local association in this department.

TOO TECHNICAL

The attendance and fellowship section of the conference was exceptionally technical in its proposals for forwarding its work, Padre Bruce stated, and in many cases spoke over the heads of the listeners.

At the beginning of the meeting T. O. Mackay announced that plans were being made for an interservice club golf tournament. The first round of this competition would be played at the Victoria Golf Club on May 20, he stated. Players were requested to send their entries to the club secretary, Mr. Goodlake.

NEW CAR TO BE ON SHOW

Roosevelt, Latest Production of Marmon, Arrives For Display at Dinsmore Brothers

The new Marmon and Roosevelt cars have arrived in Victoria and will be on display in the showrooms at Dinsmore Brothers at 845 Yates Street to-morrow afternoon.

The Marmon needs no introduction to the motoring public. Strength, character and ruggedness are the three attributes most commonly associated with Theodore Roosevelt. With the name and memory of the greatest of modern Americans, Marmon engineers have taken these three qualities and built them into the Roosevelt car, built them to the standards demanded by such a name. Just as Theodore Roosevelt's ideals were admired and respected by every citizen Marmon has endeavored to make the Roosevelt car for all. Before Roosevelt was suggested ranging from names of mythological gods to names of famous battles. Marmon officials, however, considered the name chosen a particularly happy choice because of the universal appeal of the twenty-sixth president of the United States whose inauguration was twenty-four years ago.

Dinsmore Brothers cordially invite the public to visit their showrooms and inspect the new straight eight four-door sedan Roosevelt cars.

REALTY BOARD HEARS LEADER

G. A. Spencer of Seattle Luncheon Guest of Real Estate Board To-day

G. A. Spencer of Seattle, president of the Pacific Northwest Real Estate Association, and T. W. Zimmerman, secretary, were the guests of the Victoria Real Estate Board at a well-attended luncheon this afternoon at the Spencer's restaurant. G. Stewart Clark, president, occupied the chair.

Mr. Spencer congratulated Victoria upon the healthy realty condition, and remarked that the whole northwest was getting back to thriving financial health after post-war bad times. Mr. Spencer hoped a large Victoria delegation would attend the convention of the Northwest Association, to be held in July at Salem, Ore. He suggested organization of a northwest caravan from Seattle, with a special police escort and a stop-over at Portland for the first night.

Discussing methods of increasing interest in and attendance at meetings of the board, Mr. Spencer advised preparation of important matters for decision. The development of a city was a matter where the board could lead. In Kansas City and other communities the opinions of the Real Estate Association upon municipal development were regarded as of even greater weight than those of Chambers of Commerce.

T. W. Zimmerman, secretary of the Northwest Association, twitted by Mr. Clark upon omission of Victoria realty from the association's bulletin, expressed delight at finding "some one reads the darned thing."

Inspector W. R. Dunwoody, of the Provincial Police, arrived in the city to-day from Nelson to confer with his chief, Col. J. H. McNeill. Inspector Dunwoody is the officer who quelled the recent Donkhor school trouble in the Nelson district.

NEWS IN BRIEF

The opening of the Cedar Hill Lawn Tennis Club will take place on Saturday afternoon at 2:30 o'clock.

Rev. Henry Knox of Emmanuel Baptist Church will give a gospel message at 8 o'clock to-night at the Strangers' Club.

Ward Two Liberals will meet at headquarters to-night at 8 p.m. to elect the executive and to transact other business.

D. L. Willgress, Canadian trade commissioner to Germany and Central Europe, will reach Victoria to-morrow from Vancouver.

Allan Young was fined \$30 in City Police Court this morning when he was found guilty of driving an automobile to the common danger on Port Street.

John Geddes, charged in Provincial Police Court yesterday afternoon with driving to the common danger, pleaded not guilty and was remanded until next Wednesday.

An illustrated address on the "Life of Moses" will be given by R. H. Scoble at the Oakland United Church, Goswold Road, on Sunday next at 7 p.m. An invitation is extended to all.

The monthly meeting of the Prayer Union for the salvation of Israel will be held on Friday evening next at 8 o'clock in the Y.W.C.A. Building. All interested friends are cordially invited.

Tenders for supplying school desks were opened by the Department of Education yesterday. The Tait Pipe and Foundry Company Limited, who submitted the figure of \$10,212.20, were awarded the contract. Five other firms submitted bids.

With the estimate of one experienced grower that strawberry acres in Saanich will be ready for first picking sometime between June 15 and 20, registration of those who wish to go to the fields this year is proceeding at the Employment Service of Canada, Victoria branch. The office is located at the northeast corner of Langley and Broughton Streets, where full details may be secured. The work in past seasons has proved popular and lucrative to those who stayed with it through the picking season.

The following donations were received by F. Landsberg, local treasurer of the Save the Children and Near East Relief Funds, for the period of May 1 to 15: Miss T. Turner, \$1; Anonymous, \$1; R. J. Knight, \$2; Miss D. Kitto, \$1; E. \$1.50; D. H. \$2; J. Babcock, \$25; Reformed Episcopal Church, \$5.65; Mrs. Strickland, \$2; Chinese Presbyterian S.C., \$2.16; Reformed Episcopal Sunday School, \$2.40; Mrs. C. Robertson, \$5; Ready-to-help Circle, \$2.87. Further donations will be gratefully acknowledged by Mr. Landsberg at 737 Fort Street.

SWIMMING COURSE IS OPENED HERE

Almost 200 Schoolboys Receive Elementary Instructions at Y.M.C.A.

Approximately 200 young boys received their first lesson in swimming at the Y.M.C.A. to-day when instructors Archie McKinnon and Vivian Shoemaker gave them elementary drills to make them accustomed to the water.

The youngsters were taken to the tank, where the water was lowered several inches to give them confidence. They were taught to hold their heads under the water and at the conclusion of the lesson attempted to do the "deadman's" float.

Several boys took to the water readily and showed promise of becoming swimmers.

During the morning five classes of twenty boys each received primary instruction, while during the afternoon four more sections were given their first lesson.

Teachers from the different schools supervised the different groups.

PRETTY FAIR-HAIRED GIRL IS VICTORIA'S MAY QUEEN

(Continued from page 1)

nominated her. And she is as capable as she is popular, evidence of this being the fact that the students' choice was endorsed by a bonus of 100 votes chosen from the faculty of the school.

Clare is a native daughter. She was born in Duncan, Vancouver Island, thirteen years ago, and has lived for the last eight years in this city. Previous to entering High School, she was a student at South Park Grade School.

"Clare is a popular choice," said R. Dinsworth, principal of the High School, following the announcement of the judges. "She has already won scores of friends at the school. She is an excellent student and has been bestowed this honor because of her industry as much as for her personality."

She is a pupil in Division Twenty at the school.

Beside being a clever student, Queen-elect Clare also takes an interest in the world of athletics. She is a proficient swimmer and also a fine tennis player.

The Maytime Queen will preside over the entire season of festivities in connection with May 24, holding her first court on May 23 at the big schools programme, and riding next day in the grand street parade. As Queen-elect of the schools she will have as her subjects everyone in Victoria for the holiday fun, and will be officially crowned at the Willows Arena on May 28.

Princesses Queen-elect court will include those voted by popular selection from the following schools: Girls' Central, George Jay, Margaret Jenkins, North Ward, Oaklands, Quadra, Sir James Douglas, South Park, Victoria West, Bank Street, Beacon Hill, Kingston, Quadra Primary, Spring Ridge and Burnside. Heralds and pages will be drawn from students at the Girls' and Boys' Central Schools.

Canadian History Prizes Presented

Presentation of prizes for proficiency in Canadian history were made this morning at the Gordon Head and Sidney schools by members of the Canadian Club executive, including John Bunn and Alderman W. T. Strath. Russell Twining was the winner of the handsome set of books presented at Gordon Head, while Trevor Page secured high marks to win the prize at Sidney.

FAST CHANGES IN VIEWPOINT AFFECT REALTY

"New Bag of Tricks Needed," Realty Board Warned By T. W. Zimmerman

In common with all other progressive business leaders of the realty world of North America have been compelled to realize the necessity of new methods of conducting affairs, T. W. Zimmerman of Portland, secretary of the Pacific Northwest Real Estate Association, told the Victoria Real Estate Board this afternoon. This realization has been brought about by competition of new products of engineering and science for the attention and patronage of the investor, he said. "A new bag of tricks is needed," he commented. Mr. Zimmerman told of vast changes taking place in business, due in part to engineering and scientific progress. This situation he termed a threat to the man who is smugly satisfied with things as they have hitherto existed. North America has entered a period of keen competition, not of price cutting, he commented, but of general regard, but new methods such as instalment sales, and new inventions displacing established products.

Even time bid for Competition for the time of the customer is a factor of growing importance. Men cannot be at home listening to the radio and at the same time using gasoline.

Such competition while not new, has become intensified since the war, regarded as irritations, Mr. Zimmerman pointed out that most new methods have to be adopted later. This makes the prospect of a feature so unique and to-day's profits rather than to-morrow's profits. We need a new bag of tricks, or a new trick in our bag, if we wish to serve the public response to our necessity for business," he said, referring to the situation of the realty business.

"We have only begun to realize how much this world has changed since 1914. People have lost interest in nearly everything before the war. There is a whole generation that knows nothing of the ways in effect before 1914. Every method surviving from before 1914 should be challenged," he said, pointing to advances in mechanics, production, methods of accounting, and similar matters.

FAST CHANGES

"We think we are well posted, but have not got the habit of skimming the new ideas in the same way as we skim the news in the daily papers?" Mr. Zimmerman asked. "The announcement with which to go after the business offered to-day," Mr. Zimmerman said, suggesting that the banks may yet be great sales centres for insurance and that sale of goods may yet be conducted with tokens.

"As no patent is valid until adjudicated, so no new idea is worthwhile until it has been tested, and recommending that novel methods be tried out in small centres. 'Ideas which have been successful in one city may be adopted to suit your needs,' Mr. Zimmerman said. "I have found a royal road to success is liable to find his road leads him over the cliff. He who tries his ideas first on a laboratory scale is liable to find great success. After all, it is only morning yet in this great Northwest of ours," he concluded.

ON HIS FIRST VISIT TO CITY

Making his first trip of inspection to Victoria, H. J. Humphrey, assistant to Grant Hall, vice-president of the Canadian Pacific Railway, reached here this morning from Montreal.

"My present trip to the Coast is in the nature of an inspection tour, and it is my first visit to Victoria," said Mr. Humphrey on his arrival at the Empress Hotel. He hastened to add that he was a Western man and pointed out that he had no stranger to Calgary and Vancouver.

Mr. Humphrey has been in the service of the Canadian Pacific for twenty years, having been chief dispatcher at Calgary in the early days of his service. He was head of the car service on the Western division of the C.P.R. up to 1918 when he made his last visit to Vancouver.

"I am now going out to get acquainted with some of our properties here," said Mr. Humphrey as he left the hotel this morning in company with Capt. C. D. Neroutos, manager of the B.C. Coast Steamship Service.

The assistant to the vice-president, who is accompanied by Mr. Humphrey, plans to leave here by the night boat for Vancouver and will leave the Terminal City to-morrow night on his return East.

VANCOUVER TO VOTE AGAIN ON BRIDGE SCHEME

(Continued from page 1)

Those rejected were: Burrard Bridge \$3,000,000, City Hall \$1,000,000, Art School \$100,000, branch libraries \$175,000, fire alarm headquarters \$350,000, English Bay foreshore \$300,000.

"Disappointed but not dismayed," was the expression with which Mayor W. H. Malkin described his sentiments this morning.

"We put through fourteen of the twenty-by-laws," he said, "and we carried more than half of the total money appropriation. "I am particularly pleased that all the by-laws but two had more than a majority of the votes. One or two of these defeated failed by only a narrow margin of achieving the three-fifths vote. It is particularly true of the Burrard Street Bridge, about the defeat of which I am particularly disappointed."

We shall have to resubmit the bridge by-law to the civic election, when we shall be able to give it more concentrated attention."

A general meeting of the membership of the Victoria City Temple will be held Friday evening at Temple Hall, at 8 o'clock when, in line with the new policy outlined during the first 24 solidary plans, with the combined take place. Immediately after the business session a programme of musical items will be rendered and refreshments will be served in the dining-room.

WHIPPLEY DERBY

An all-Canadian whippley derby will be seen at the Willows on the afternoon of May 24, starting after the 10 o'clock when, in line with the new policy outlined during the first 24 solidary plans, with the combined take place. Immediately after the business session a programme of musical items will be rendered and refreshments will be served in the dining-room.

After the fireworks on the evening of May 24, a "Night of Mystery" at the Crystal Garden promises a wealth of carnival fun for holidaymakers. The entire programme there is being held for the most attractive features of the day. Bands will dot the line of march at frequent intervals.

Last minute arrangements have included additions to the fireworks display promised by Thomas G. Pitt Limited. Victoria's first buffalo will also be on hand in time for the holiday crowds, being due shortly after May 20.

Highlights in the programme of the three-day festival will include the big schools programme at the Willows Arena, with the coronation of Queen Clare, Maytime monarch of Victoria and its environs.

Equus, Saanich and Oak Bay have each done something to promote the success of the joint festival this year, and large numbers of out-of-town guests are expected to arrive in good time for the entertainment.

Announcing Drastic Price Reductions On Rodgers Radio

THIS announcement is of the utmost importance to everyone who is about to invest in a radio. It enables you to buy the world's leading radio at a saving that is a worthwhile consideration. And when you buy a Rodgers Batterylless you have the satisfaction of knowing that there is nothing finer in tone, power and dependability in the ranks of radio.

Ask us for particulars of the new low prices and terms in effect to-day.

Mrs. James Forman Passed Away To-day

Well-known Lady Dies After Lingering Illness

Many friends in Victoria will learn with regret of the death of Mrs. James Forman, wife of James Forman of Heisterman, Forman & Company, who passed away at 12:15 p.m. to-day after a long illness.

She leaves to mourn her loss, besides her husband, one daughter, Helen. Funeral arrangements will be made later.

CHINESE WILL PRESENT RARE SPECTACLE HERE

(Continued from page 1)

Chamber has given this undertaking, said Mr. Strath to-day, and welcomed the prospect of a feature so unique and rare to add to the list of attractions for the holiday period.

MONARCH OF THE JUNGLE

In the line of march on the way to Beacon Hill Park the Chinese enter in the international section will be led off by banner bearers of the Chee Kong Tong. Then will follow a group of the leading members of the organization here, prominent in business circles in the city.

The lion leader will march immediately ahead of the lion, the latter made up of two men supporting the curiously-fashioned frame resembling the monarch of the jungle. Four reliefs will march behind the lion to frequent rest, for the men supporting the heavy frame.

The lion's group will be followed by the leader of the lion cub, and then will come the lion cub itself, similarly supported by reliefs. A Chinese orchestra will parade behind the whole, supplying music for the prancing lions. After the parade the dances will be seen, comprising an unique and attractive spectacle, seldom if ever before witnessed in this country.

BRITISH TARS AT HEAD

Other plans for the parade include a brave show of uniform and music that will stretch its length to a full mile. British tars will march at the head of the column, followed by details from the military and volunteer regiments. Many attractive floats will be seen, and individual entries on horseback, cycling or otherwise engaged, will bring the whole to one of the most attractive features of the day. Bands will dot the line of march at frequent intervals.

Last minute arrangements have included additions to the fireworks display promised by Thomas G. Pitt Limited. Victoria's first buffalo will also be on hand in time for the holiday crowds, being due shortly after May 20.

Highlights in the programme of the three-day festival will include the big schools programme at the Willows Arena, with the coronation of Queen Clare, Maytime monarch of Victoria and its environs.

TOURIST TROUBLES IN AUSTRALIA ARE NOT IMAGINARY

Graham-Paige Sedan Negotiated Mud Hole Where Other Cars Failed

Graham-Paige production in April broke all records for one month's output with a total of 11,550 cars. Production for the first four months of the year puts Graham-Paige seventy-two per cent ahead of the same period last year, with a total of 35,934 cars, a gain of 15,434.

As compared with March, the April production showed an increase of 1,940 cars, or twenty per cent. Orders already on hand for May shipment total 13,500.

"Graham-Paige is now reaping the benefits of its improved position in the industry," says a statement issued to dealers by F. R. Valpey, general sales manager, announcing the record-breaking production. "The high total attained last month, and the fact that there are already on file at the factory orders for 13,500 cars for shipment in May, reflect the combined effects of constantly increasing demand, larger manufacturing capacity, and a greater dealer organization."

NEW DEALERS
"In the last thirty days, we have added 220 dealers in the United States and Canada. For the first time in history, the company now has over 2,500 distributors and dealers, domestic and foreign, or more than three times as many as there were when the Graham-Paige was introduced."

"Of significance equal to that of this increase in dealers are the gains in sales and the improved position in registration standings reported by long-established dealers in important buying centres."

"Only a few reports have been received for April, but they indicate that Graham-Paige registrations stood fourth in Atlanta and seventh in Detroit, where 551 cars were delivered at retail. Los Angeles, Cleveland and Atlanta report the best month in their history, while Dallas showed a gain of 600 per cent in wholesale business. In Canada, Vancouver and Toronto set new records for sales volume."

"An interesting aspect of the increase in the Graham-Paige business is the gain in export trade. In April, 1,488 cars were shipped to foreign countries (Canada not included), setting the fourth consecutive monthly record this year, and representing a gain of ten per cent over March exports. The export shipments this year to date total 4,022 cars, the first four months this year having exceeded the first nine months of last year."

"Similar ratios are found in the figures for sales in Canada which are not included in the export totals. April shipments to Canada were 1,035 cars, bringing the total for this year to date to 2,240, as compared with 980 cars for the first four months of last year."

GYROS ORGANIZE "WHOOPEE NIGHT"

Sparkling Programme of
Vaudeville at Coliseum
Thursday

Revel with the Victoria Gyros in their big "Whoopie Night" at the Coliseum Theatre on Thursday next, May 23. The Gyros will stage a snappy, sparkling programme of variety offerings which are certain to make an outstanding hit.

The Gyros are sparing no trouble or expense in making their novel mid-night matinee on the eve of Victoria Day the biggest and best show of its kind ever produced here. There will be lots of fun and humor, beautiful girls, dance and song specialties and many other attractions.

The fete will begin at 11:30 p.m. and continue until 1 a.m. There will not be a dull moment. The carnival spirit will reign supreme, and a joyous entertainment is assured all who attend. Be sure and see this scintillating performance, the treat of the season. At the Coliseum Theatre.

ANGLING FOR WAYS TO COOK FISH

By SISTER MARY

From now on through the Summer months fish should be served often. Any variety, whether from deep sea or fresh water, is an excellent meat substitute, while sea fish are valuable not only for their protein, but for iodine and several vitamins as well.

In the last few years science has done much to convince us of the worth-whileness of fish. Their vitamin content makes them particularly important for children and for young folks whose bodies are still growing. Fat or lean fish are rich in vitamins B and C, while the fat fishes contain a good amount of vitamin A in addition to the other two.

Well-cooked fish is a delicious food and the woman who "simply can't cook fish" would do well to learn now.

The way you cook your fish depends on the kind. Oily or "fat" fish should not be cooked in fat, but lean fish may be sautéed or larded and baked or broiled or steamed. Fat fish can, of course, be cooked by means of broiling or boiling or steaming. If fat fish is baked it should be placed on a rack to prevent it from becoming strong flavored by being cooked in its own fat.

Small brook fish are delicious when pan broiled or fried in deep fat. Fillets of fish are good fried in deep fat. Deep fat frying is preferable to pan frying since less fat is absorbed in the former method.

People who live far inland need not be deprived of this excellent food, for commercially canned fish is carefully selected fresh fish packed under ideal conditions and is a wholesome, desirable and inexpensive food.

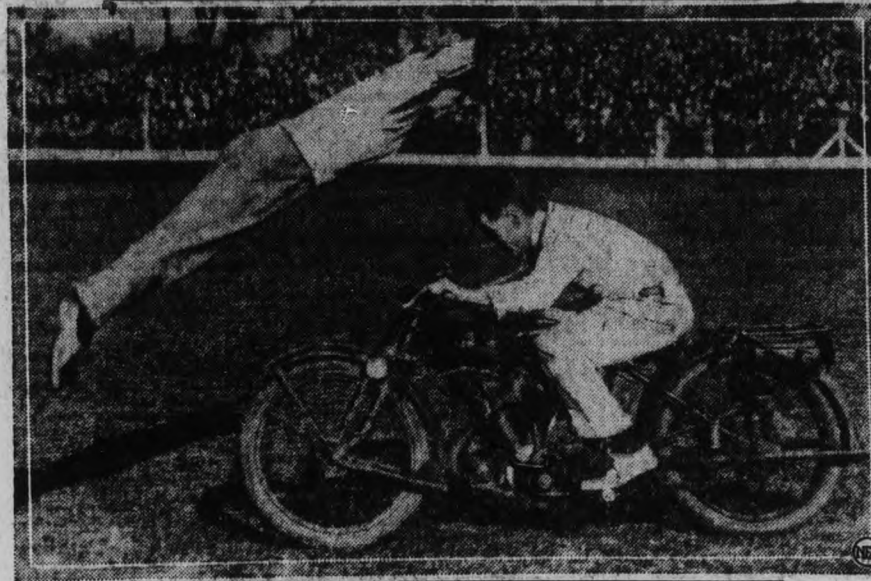

Fish chowder served with a vegetable salad makes almost a full meal. Canned or fresh fish can be used.

MORE SPEED IN DISARMAMENT IS BALDWIN'S PLEA

London, May 16 (By Thomas Champion, Canadian Press Staff Correspondent).—"Foreign nations must not expect Great Britain to do all the disarmament and the debt-paying," declared Premier Stanley Baldwin in a campaign speech at Monmouth yesterday, when he discussed the work of the League of Nations.

"That is not the spirit of the League and the covenant," he went on. "We have all got to march forward together and we will march with the quickest, as we have been doing. We are marching a little quicker at the moment, but the other nations cannot lag indefinitely behind. The last thing we want to see is Europe split once more into hostilities."

TRY THIS WHEN CROSSING VICTORIA STREETS

The trouble is, most pedestrians just aren't quick enough. But it's so silly to get all mused up under wheels and go home on a stretcher when, with only a little practice, you could learn to outwit the most zealous hit-and-run driver. Pictured above are the Newman brothers, crack gymnasts, as they used a motorcycle to show a crowd of pedestrians in London just how easy it is to avoid having to collect on their accident insurance policies. One simply leaps high into the air and the onrushing vehicle passes harmlessly underneath.

Places Of Worship In Russia Made Over

Moscow, May 16.—Five hundred and thirty-two places of public worship were closed in the Soviet Union in 1928. They were converted into clubs, public schools, boarding houses, libraries and reading rooms, ambulances and hospitals, cultural centres or museums.

Two hundred and fifty-three more places are marked for similar conversion this year, but there will be plenty left for religious purposes. A recent survey showed there were some 50,000 churches in all of Russia.

The places of worship are closed to religious purposes only when a majority of the local population favors the change. A vote is taken if the initiative comes from local authorities. The 1928 list included 354 Orthodox churches and thirty-eight monasteries, fifty-nine synagogues, thirty-eight mosques and forty-three buildings belonging to various sects.

FRECKLES

Don't Try to Hide These Ugly Spots; Othline Will Remove Them Quickly and Safely

This preparation is so successful in removing freckles and giving a clear, beautiful complexion that it is sold by all drug and department stores with a guarantee to refund the money if it fails.

Don't try to hide your freckles or waste time on lemon juice or cucumbers; get an ounce of Othline and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask for Othline—double strength; it is this that is sold on money-back guarantee. (Advt.)

The strongest part of the body is the heart; then come the jaw and the thumbs; the weakest bone is the collar bone.

Protect their Tender Skins and Silky Hair with

Cuticura

Teach your children the Cuticura habit that they may have clear skin and lovely hair through life. The daily use of Cuticura Soap, assisted by Cuticura Ointment, keeps the skin and scalp clean and healthy.

Soap 25c, Ointment 25c, 50c. Telegram 25c. Sold everywhere. Sample each free. Address Canadian Dept.: J. T. Wat Company, Limited, Montreal. Cuticura Telegram is soothing and cooling.

... The Beautyrest Mattress ... Now on Special Display!

A few hours
on Beautyrest and you're fresh as a daisy

ARE you giving yourself a square deal? Are your sleep-hours properly productive of rest? Take a look at your mattress tonight when you go home.

If it isn't a Beautyrest, you are missing something, for Beautyrest is the one mattress that gets sleep to high speed-days. Each hour on it is a full sixty minutes of unbroken restful slumber.

This is the kind of sleep that counts. It enables you to get the most out of life. You enjoy every waking hour because you are properly rested and therefore fit.

Banish listless days that follow nights of insufficient rest. Put Beautyrest on your bed and pack eight hours' sound sleep into five or six . . . every night.

Hundreds of sensitive little coil springs buried between layers of pure new cotton are permanently attached to the firm pocket edge created by Simmons and found only on Beautyrest; ventilated sidewalls. Rich Jacquard Damasks now cover the new Beautyrest. \$42.50

TO-DAY'S GRAIN MARKETS

(Branson, Brown & Co. Ltd.)
Winnipeg, May 16.—The local wheat market was somewhat featureless to-day. Prices were about 1/2 off at the opening, and closed fractionally higher to fractionally lower. Traders are not inclined to take definite stand, and the market is full of cross currents, and sentiment is divided. There was some fair buying in the pit by operators who look for delivery of the two top grades.

For the first time in a long period there is some keenness in demand for No. 1 and 2 northern. Liverpool closed fairly steady, firmness being accounted for by continued dry weather in the Argentine, which is delaying work.

The Van Dusen Harrington report on Spring wheat conditions in north-west states is on the whole favorable, but there are complaints of deterioration owing to excess of moisture coming from the winter wheat belt. There was some buying by seaboard houses here on soft spots, but spreading trade which has been quite active during the first half of the week was of insignificant proportions to-day.

(By Branson, Brown & Co. Ltd.)
Chicago, May 16.—Wheat: Lack of buying support more than heavy selling was responsible for the easier tendency. Foreign selling was a factor early, but most pressure came from locals. In general the news was about the same as recently, which means it was bearish. However, there are some features which were more favorable to holders. Canadian country marketings were 115,000, against 506,000 bushels a year ago and for primary receipts were less than half as much as a year ago. Argentine shipments were estimated 6,983,000 bushels. Weather conditions were favorable and no frost of consequence materialized since the 1st.

Local cash trade picked up a little. Crop experts Donovan and Lecourt are finding wheat prospects excellent in the southwest. It will probably take either adverse crop news or a broad export demand for hard winter wheat to stimulate buying and neither of these influences are in evidence.

Washington developments have but little influence at the moment. In the meantime we look for a trading session.

WHITNEY LETTER

By Branson, Brown & Co. Ltd.

(By Branson, Brown & Co. Ltd.)
New York, May 16.—Whitney of the Street Financial Service says today:

REDCOUNT RUMORS

"The advance in call money to fifteen per cent served to revitalize all of the rumors and predictions which were current earlier in the week concerning an advance in the New York discount rate, with the result that sufficient nervousness was created to induce selling of sufficient amount to at least hold the market in check. Undoubtedly reports and predictions will be even more positive to-day, although it is hard to imagine that any individual who is interested in the stock market was not advised at least three times yesterday and quite positively that a higher rate would result from to-day's meeting.

"I do not believe there will be any change made in the New York rate and I believe that with the fifteen per cent rate recorded yesterday we have witnessed the highest call loan rate which will be reported until the end of this month. In fact, after high renewal rate, I believe that fears concerning redcount rate changes will be set at rest by a moderate reduction in the call loan rate. The principal reason why you should stop worrying about the redcount rate, is that even if the rate were advanced, it would have no effect on the money rates, which are already so far above the redcount rate as to be unaffected by it, and second, because it would be such a relief to be finished with the rumors and have the so-called bad news out of the way, that the market after an hour or so of unsettlement would begin a new advance.

"The principal reasons why an upward revision in the rate is not logical, are first, that it would penalize general business without affecting the stock market, second, that it would interfere with the market which is to be made for repurchase bonds; third, make the problem of European currencies even more difficult than they are now, and fourth, interfere with what is wanted in England, viz., a reduction in the Bank of England rate before the English elections. Bank interests were the largest buyers of high grade stocks in the past two market sessions, their judgment of the situation is expressed by this action.

"Electric Autolite is scheduled for an advance which will put the stock in the 200 class. The reasons are briefly as follows: In the first six months of the year the company will

do a larger business than it did in the entire year of 1928. For the full year earnings will amount to approximately \$30 a share, \$15 of which will amount from profits derived through the company's holdings of Bendis Aviation. The stock is a purchase now, just as when it was recommended on earlier occasions.

"Use prices below 115 to buy American and Foreign Power, below 117 for the purchase of Cons. Cas, and continue the purchase of Ralls and Oils which have been recommended here."

TO-DAY'S EXCHANGE

New York, May 16.—Foreign exchanges irregular. Quotations in cents:
Great Britain—Demand 484 19-32, cables 485 1-16, 60-day bills on banks 484 1-16.
France—Demand 390 5-16, cables 390 11-16.
Italy—Demand 523 5-16, cables 523 11-16.
Belgium—Demand 138 7/8.
Germany—Demand 23 7/8.
Holland—Demand 40 1/8.
Norway—Demand 26 5/8.
Sweden—Demand 26 5/8.
Denmark—Demand 26 5/8.

Montreal—Demand 99 3/8.

New York, May 16.—Call money easier, high 14, low 8, ruling rate 14, closing bid 8.
Time loans firm, mixed collateral 60-90 days 9, 4-6 months 8 1/2.
Prime mercantile paper 5 1/2 @ 6.
Bankers' acceptances unchanged.

New Westminster, May 16.—That William C. Bell, charged with robbing Thomas Gifford's store here August 18 last of \$12,000 worth of jewelry, had admitted the theft to Frank Ghilarducci, Tacoma florist, was stated in Ghilarducci's evidence, which has been taken in the Assize Court here yesterday afternoon.

The evidence of Ghilarducci, given before Magistrate H. G. Johnson at the preliminary hearing on March 29, was read when the witness failed to appear. Captain E. J. Nix of the Tacoma detective force stated Ghilarducci had refused to accept a summons, stating his life had been threatened.

Effective May 12, the afternoon boat to Vancouver will leave Victoria daily at 1:45.

HEADS OF NEW CANADIAN ADVERTISING AGENCY NAMED

Lee Anderson, president (top), Burt A. McDonald, vice-president and treasurer (left), and Thomas Alexander Bagg, manager Canada Division (right) of the Advertisers, Incorporated.

STERLING PACIFIC

One of the better Calgary oil stocks. The increasing activity of Sterling Pacific on Vancouver and Toronto Exchanges justifies expectations of higher prices. We recommend this issue. See us for particulars.

CALL MONEY OFF FROM 14 TO 8%; AUBURN CLIMBS 15 POINTS TO 238

New York, May 16 (By B.C. Bond)—Brokers' loans for the week to-day show an increase of \$14,000,000.
Dow Jones average of 30 Industrials at the close today stood at 320.09, up .74 points; and for 20 rails at 149.08, up 0.26 points. There was no change in the redcount rate of five per cent.

AUBURN AT NEW HIGH
New York, May 16 (By B.C. Bond)—Auburn Motor was one of the sensations on the market here to-day, with the stock soaring fifteen points to another new high at 238.

Auburn's consolidated net profit for the year ended November 30, 1928, was \$1,425,223, against \$1,231,456 in the preceding year.

MOTOR OUTLOOK UNCERTAIN
New York, May 16 (By B.C. Bond)—It was reported that motor stocks harbored a large short interest and that covering would bring rallies from time to time.

However, judging from comments around the street, commission houses are not optimistic on the group.

Traders are expressed that keen competition coupled with the possible smaller buying power in farming communities may affect the sales of cars in the last half of this year.

New York, May 16 (By B.C. Bond)—A strong rally followed the first hour of weakness in the market to-day, as money turned easy following a renewal rate of 14 per cent and dropped to 8 per cent.

The market gave one of its characteristic reversals without particular news to explain the change. During the selling of the first hour, rumors were abroad dealing with a possible increase in the New York redcount rate, but when stocks rallied on lower money these rumors disappeared.

Total sales for the day were \$348,900. Among the new highs reached to-day were Columbia Gas at 72, General Electric at 283, Marlin Rockwell at 86 1/2, Air Reduction at 133, Lorillard at 296, Burroughs at 302.

The tone of the whole market was stimulated when it was indicated that liquidation in Anaconda had been completed. This stock and Gas leaders in the recovery, after making a low around 121, which represented a decline of more than fifty points from the high. Oil stocks were rather soft during all of the day.

Warner Bros. and Paramount-Famous-Lasky were in fair demand, owing to merger rumors involving the two United Corporation, while it rallied moderately, did not show particularly strong on the general recovery.

Stewart Warner was in fair demand on repeated predictions that the second quarter would show substantial increase in earnings over the first quarter when company earned \$1.67 on present amount of stock. The steel market was quiet, and rails were absolutely neglected.

Brokerage advices had it that the country is more interested to-day in anything pertaining to aviation than has been the case with a new industry since the radio business started across the stage. This interest has been dramatized, commission brokers state, the big forward movement in United Aircraft in a relatively short time, and the response of Packard shares to the successful demonstration of a new airplane Diesel engine. On top of this are the several long distance flights of air machines and two Atlantic crossings shortly by dirigibles. The interest in aviation matters has spread to stocks representing all related lines of the industry.

Though in the forefront as a group, the Public Utilities issues maintain a large following, there are undoubtedly huge developments under way in this business. These may take months to complete and meanwhile, utilities support the same steady growth in business.

Traders' views on the steel industry, outlined continued large business with prices holding firm and the mills running at high rate.

The copper industry took steps to adjust its production demand situation with Anaconda reducing production by ten per cent, which was expected to stabilize the market situation.

Rubber stocks to favorable trade developments on the form of April consumption figures of 47,500 tons, a record amount, and far beyond expectations of the industry. Goodyear sold above 140 for the first time in months.

"SALADA" TEA

'Fresh from the gardens'

"LOVE IS OF THE VALLEY"

By DAVID LYALL

"How do you do, Jimmy. I was surprised when Lotta told me who had called. You never said a word in your last letter about coming through this week-end, in fact, I thought you were in the throes of your finals."

"I got through the last bout this morning and came off all of a sudden. You're going out to-night, Mrs. Heron says. When can I see you?"

She turned a curb bracelet round and round on her slim white arm, looking desperately uncomfortable.

"I don't know, Jimmy, sometime to-morrow or Sunday perhaps. I'm afraid it will be Sunday, for I'm going into the country in a motor to-morrow afternoon."

"Who with?" asked Jimmy darkly.

"A friend," she answered evasively.

"That German bouncer, I suppose," he said wrathfully.

She made no answer for a moment though her eyes flashed fire.

"You needn't call people names, Jimmy."

"But I won't have it. I forbid you to go motoring with him. You can come motoring with me instead."

"On can I? Have you come into a fortune then? Don't look so furious. I'm not going alone. Lotta will be there and another man; we'll be four in all."

"But I don't want you to go," cried the unhappy Jimmy. "I've come all the way from Glasgow for the purpose of seeing you, and you've simply got to come out with me. I've got all sorts of things to say to you."

"Sorry I can't, not till Sunday. I'll meet you outside on Sunday if you like, and we can go for a walk. I don't want you to come here again."

"What time on Sunday?"

"What time? Oh, I don't know; afternoon, say 3 o'clock. You'll have to go to church, won't you, in the morning?"

"No, I needn't. Can't you come out in the morning? I'll call here for you at 11 o'clock."

"Oh well, if you want to," she said discontentedly, for her quick ear had caught the click of a key in the front door. "I'm sorry I'll have to go now, for Lizzie Anderson is out and we've got only a temporary woman in the kitchen and I've got to superintend her dishing up dinner. Sorry to seem so ungracious, Jimmy, but really you've chosen the most awkward hour of all the day to call, and I've got things to do in the house."

Jimmy rose to his feet feeling cheap and unwelcome.

"Sorry I've intruded to such an extent. Once I could at any hour," he said rather bitterly. "Good night. Don't trouble to see me out. I'll call on Sunday morning then at 11 o'clock."

"All right, good night, Jimmy—sorry—but it had just to happen like this. I'm not to blame," she said, throwing a little at the sight of his miserable face.

As he passed out he had to encounter Gustave Welle in the hall divesting himself of a light overcoat for which a slight spell of east wind had provided the excuse. He looked at him sourly and yet critically, hating him with a hatred which surprised and disquieted him. Welle smiled upon him blandly and even turned aside to do him the courtesy of opening the door.

"A lovely evening, is it not, but a trifle cold," he said.

Jimmy merely snorted and walked out. He was in no mood to return to

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harm-

the whole, probably much better than he expects."

"Oh Donald Grier, you're even more dense than usual! I only wish I could think you were speaking the truth," she said ruefully. "What do you suppose Jimmy came for this time?"

"To tell you about the exams, of course. I tell you there isn't anything else in his mind just now. He'll be better for a holiday, poor chap, and I've been trying to persuade him to come to Loch Long with us."

"Good night, Donald Grier, your lack of imagination is beyond belief; but I'm glad you're like that; it saves yourself a lot of trouble," murmured Allison and closed her eyes.

CHAPTER XXI

Next morning about 8 o'clock, as Mrs. Grier, a very neat figure in a big cotton overall and a fascinating blue cap, was polishing the brass handles on the front door, the postman came whistling up the garden path.

She gave him a pleasant good morning as she took a small handful of letters from him, asking kindly for his wife and little family, all of whom were well known to her. After he had gone, cheered by her kindly greeting, she leaned against the lintel and sorted out the letters, coming presently on a small, thick one addressed to her by her sister-in-law, Lotta. She had no difficulty in recognising as Ida Heron's.

"It don't like this," she said to herself, as she eyed it suspiciously. "I don't like it at all. What do folks living practically in the next street want to write like that? I'm sure it spells trouble."

It so happened that she had no heart to inspect the rest of the correspondence, though she had a healthy human interest in the postman's bag as a rule.

She left it on the hall table, apart from the others, and each time her eye fell on it during her dusting process, her misgivings deepened.

"Four boys, he's going through the mill just now, with the exams and things, and having no money, and all the rest of it! But this is going to be the worst yet. But I'm dead sure if it's what I think it is, I'll turn out for the best in the long run."

Jimmy slept late, and she did not go near his room. Well she knew how many hours he burned the midnight oil in his cheerful little Glasgow lodging, and that his young strong body needed all the rest it could get. Saturday was high day as well as a holiday for the Manse boys, and that day they had been promised a picnic on the little bit of pebbly beach about two miles along the shore which was all they could muster in the way of sands, about half-past ten they departed in glorious sunshine in charge of Katie, the eldest girl, and a school friend of slightly mature years, wheeled the little one and the school in the old perambulator. Kissed and blessed at the gate, their mother promised to come along later in the day and bring them home. When she stepped back into the shadows of the house she saw Jimmy on the landing, and gave him what she hoped was a bright good-morning.

"I'm ashamed, Alie, why didn't you come out?" he called down the stairs. "I couldn't believe my eyes when I woke up and saw it was 10 o'clock."

"Why should I rout you out? It's sleep you're needing, my dear. I've just been getting the bairns off to their picnic. They're hoping you'll join them later."

"So I will, too, if you'd only wakened me I'd have been going with them now."

He was downstairs by this time, and he immediately fell on the landing, lying face upwards on the hall table. Allison did not look at him as he picked it up, but murmured something about getting his breakfast, went through to the kitchen.

Jimmy thrust the letter into his pocket and stalked gloomily into the dining-room, in no haste to open it. Like Allison he sensed trouble and shrank from it. When in about ten minutes' time his sister-in-law came in with the teapot and a bit of fresh toast, she found him poring over the advertisement columns of the Scotsman.

"There are some very good foreign berths offering, Alie," he said suddenly. "I've a very good mind, if I get through to have a sea trip."

"Oh, do! It would do you no end of good," she said heartily.

"It has one disadvantage, it sometimes creates the taste for the sea. I've heard of chaps who couldn't stop off it after they'd made a voyage or two. Ships' doctors are a class by themselves."

"I know that, but you're not registering in that class, Jimmy. It's a great regret you're going to be, with a neat, but not gaudy, brass plate on a shiny roof, and a waiting-room crammed with patients waiting for consultation at anything from three to five guineas a head. I've got it all mapped out for you, boy, and you've got to live up to it."

He smiled and turned to the table, and when Allison had poured out the tea and directed his attention to the brown which was one of her culinary triumphs, she stood a moment with her alert, capable hands on her hips, looking at him. But as he didn't say anything she went off to air and make the beds, hoping for the best.

Jimmy, with a touch of that determination which characterised most of his thoughts and actions, ate a very good breakfast before he opened the letter. Then he carried out the tray to the kitchen and even essayed to fold up the tablecloth, but finding it going awry, re-spread it before he carefully slit the flap of the envelope and read every word.

It began without any address on the top of the page.

"Dear Jimmy,

"I'm writing this near 12 o'clock, but I shall finish it in time to run out to the pillar box at the corner so that you get it in the morning."

I am very sorry to have to write it. I hoped you would have guessed from my letters, or rather because I've written so very few, that I had changed my mind, and that now I think what we said down there on shore the day when I wasn't normal at all after our terrible upset at home was all a mistake. I soon found out that I couldn't care for you in the way you wanted, and besides, we have to have common sense, Jimmy. Looking forward, I don't see an earthly chance of our ever being able to marry and settle down, even in the most modest comfort. I'm sure we should both be grey and old before we ever could get a house together. I could never get over your telling me that you even owed money to your brother Donald, that just made it worse."

To be continued

NO FIREWORKS

London, May 16 (Canadian Press Cable).—"We have lived the full allotted span of parliamentary life," Premier Stanley Baldwin said during a speech at Monmouth yesterday. "We have been sober and have let off no fireworks near the end. We have died quietly and decently in our beds which is a deal better than dying bankrupt or in prison or on the scaffold."

ON THE AIR

THURSDAY, MAY 16

CFCT (475.5) Victoria, B.C.

6 p.m.—The closing market quotations.

ABC to Produce Popular "Mikado"

One of the most popular of the Gilbert and Sullivan operas, the comic opera "Mikado" will be produced under the Western network of the American Broadcasting Company to-night under the direction of Jacques Jou-Jerville, vocal director of the ABC.

This will be the twenty-first opera broadcast by the American Opera Company, supported by the American Philharmonic orchestra, and is expected to prove one of the most popular.

An imposing galaxy of radio favorites will sing the various roles of the familiar opus. Sydney Dixon and G. Donald Gray, well-known to Pacific Coast listeners, will enact the roles of Nanki-Poo and Ko-Ko respectively, while Hayden Morris will be heard as the Mikado of Japan. Ve Oona Scofield, sky appears as Yum-Yum and Alice Prindle as Katisha. The role of Pitti-Sing has been given Anne Billings, while Vance Gerber appears as Peep-Be.

Langford

All patrons, members and intending players are invited to attend the opening of the tennis courts at 2.30 o'clock Saturday afternoon. A small pavilion has been donated and the courts stained. Tea will be served by the ladies of the club.

F. W. Beeson of the Langford Poultry Farm has been on a business trip to Vancouver.

Mrs. Bigelow, from Regina, is spending a few days with friends in Langford.

The District Girl Guides will meet on Friday afternoon, after school, in the school house.

Miss Nellie Wilson is staying with friends at Keating.

Smart Doings of Animals

Ostriches Ease Each Other's Labor

It is well known that ostriches scrape holes in the ground to serve as nests for their eggs, which they cover with a light coating of sand. During the day the eggs are incubated by the sunbeams and at night by the male bird.

Romanes, the naturalist, cites an instance of the intelligence of the female ostriches, who apparently are rather women, and do not intend to sacrifice themselves unnecessarily to the burdens of child raising. Sometimes, he says, a number of these birds will deposit their eggs in a single nest, and then take turns at incubating them.

To-morrow's Horoscope

FRIDAY, MAY 17, 1929
Astrologers read this as an unimportant day in planetary government. Adverse aspects balance those of benefic influence. There is a sign sinister for entering into

new partnerships or for signing leases or contracts. It is well to delay affixing signatures to important papers until a more promising configuration prevails. Newspapers may carry to-day reports of world affairs that are more or less sensational. International relations may be peculiarly interesting. Women are subject to stimulating and enervating influences of the stars. They

should make the most of to-day's opportunities of every sort. Legislative bodies are to benefit through the membership of women. It is foretold, and in Congress one of two will gain fame for courageous utterances. The seers point out that in the new order of things women will gradually gain political power of the right sort and slowly establish themselves in places for which they are fitted.

This should be a lucky day for lovers, for romance is encouraged by the stars. This should be a fortunate day for theatres and all places of amusement. Musicians should profit. The summer is to be a lucky period for them. Shopping is subject to the best possible direction of the stars. Merchants should rejoice in large sales. Although thrift has been preached persistently there will be a continuation of

lavish spending of persons of every financial class. It is foretold. The habit of speculation is to be especially avoided at this time when the stars encourage whatever offers quick gain. Gambling will become more and more prevalent in society. Persons whose birthdate is 18 should be careful in the coming year, which may bring the harvest of what has been sown. False friends may cause losses.

Children born on this day may be fond of amusement, travel and excitement. They probably will have bright minds, but should be taught concentration. King Alfonso XIII of Spain was born on this date, 1886. Edward Jenner, 1749, discoverer of the benefits of vaccination, also had this as his birthday. (Copyright, 1929)

Income Tax Total Shows Increase

Ottawa, May 16.—The Department of National Revenue received \$54,933,912.02 in income tax collections between April 1 and May 15 this year, when the bulk of the income taxes are payable. This was an increase of \$9,134,611.95 over the same period last year, when \$45,799,300.07 was collected. Announcement of these figures was made yesterday by Hon. W. D. Euler, Minister of National Revenue. The total income tax collected during the fiscal year ended March 31 last was \$59,422,297.76.

After Using Few Boxes His Backache Left Him

British Columbia Man Used
Dodd's Kidney Pills

Mr. A. M. McCabe Has Not Been Bothered Since

Shelley, B.C., May 15 (Special).—The sterling value of Dodd's Kidney Pills as a kidney remedy is shown by the following statement of Mr. A. H. McCabe of this town. He writes: "I suffered greatly from backache. After using a few boxes of Dodd's Kidney Pills the pain left me and I have not been bothered with my back since."

One of the earliest symptoms of kidney trouble is pain in the back. It is itself the cause of a great deal of suffering. But kidney trouble, unless given prompt attention, frequently develops into more serious forms such as Rheumatism, Lumbago, Dropsy and Urinary Trouble. To be assured of good health at all times the Kidneys must be kept in good working order. At the first sign of trouble use Dodd's Kidney Pills.

GROWERS SEEKING BERRY PICKERS

Registration Opens at Employment Bureau; Season Starts Soon

The registration of strawberry pickers is now proceeding, and many growers of the fruit are making inquiries each day as to the supply available. One month from now weather conditions being favorable the fruit will be ready for the harvest.

The Employment Service of Canada is anxious to speed up registration of pickers as much as possible, and those girls and boys who are likely to be available for this class of work are advised to get in touch with the office as soon as possible.

During the past years many of the growers have established comfortable quarters for those who will camp, there are many places to go. Besides campers, however, daily pickers are also required in considerable number. Teams and shacks are frequently arranged for little family groups and children who are too young to go out by themselves are able to help with the picking for a few hours at a time.

The Employment Service will register every available picker and everything possible will be done to arrange as suitable working conditions as possible.

MANY LIVES LOST IN DISASTERS IN UNITED STATES

Cleveland, Ohio, May 16.—The explosion and fire in the Cleveland Clinic Hospital yesterday stands far up in the list of disasters in public buildings and factories that have taken toll of life in the United States in the last fifty-five years. Among these disasters were:

Iroquois Theatre fire, Chicago, December 30, 1903—575 deaths.

Convent fire, Brooklyn, N.Y., December 5, 1876—295 deaths.

Rhodes Opera House fire, Boyertown, Pa., January 13, 1908—170 deaths.

Triangle Factory fire, New York, March 25, 1911—148 deaths.

Exeter Theatre fire, New York, September 5, 1887—75 deaths.

Theatre panic, in Calumet, Mich., December 24, 1913—72 deaths.

Frayer's Opera House fire, Seattle, 1889—30 deaths.

Naval Arsenal explosion, Lake Denmark, N.J., July 10, 1926—23 deaths.

Grand Central Theatre fire, Philadelphia, April 27, 1892—714 deaths.

Knickerbocker Theatre collapse, Washington, January 28, 1922—97 deaths.

Factory explosion in Moran, N.J., October 5, 1918, 100 deaths.

Chemical plant explosion near Pittsburgh, May 8, 1918—100 deaths.

Theatre disaster in Richmond, Va., December 26, 1911—65 deaths.

Front Street Theatre fire, Baltimore, Md., December 27, 1895—67 deaths.

PARROT RECOGNIZES DISGUISED LADY

The Lady Clementina Davies, in her day a great leader of London Society, had a remarkable parrot. It could do all sorts of things, for instance carrying on a dialogue, and singing various songs.

She obtained it in a most interesting way. It had belonged to her friend, Lady Aldborough, but the latter, being about to take a trip to the Continent, left it with Lady Davies to keep. Apparently the latter took a greater interest in it than Lady Aldborough had done, for it conceived an inordinate affection for her, and when it was later returned to its first mistress, pined away until she thought it would die.

At first she did not suspect the cause. When every remedy had failed, however, she decided to send for Lady Davies. To make certain that it was longing for its temporary mistress that had sickened the bird, Lady Davies came heavily veiled. But she had no sooner entered than the parrot flew excitedly to her, screaming with pleasure. Lady Aldborough, of course, presented it to Lady Davies.

TELEPHONING FROM A TRAIN

An invention that eventually will enable railroad passengers on a train to pick up a telephone and talk with any person on the continent was perfected in Canada the other day when a conversation was carried on between officials of the Canadian National Railway in Toronto and other officers on a speeding train. J. C. Burkholder, formerly of the Bell Laboratories in New York, is shown above with an operator, getting the connections as the instrument Burkholder designed, transmits the voice to the telephone wires along the track. Below is shown the train from which the transmission was made. Note the aerial along the top of the cars.

DYNAMITE THREW ROCKS AT WORKER

Royal Oak, May 16.—Henry Wild, Old West Road, suffered injuries to his face from a premature rock blast on Tuesday, when at work on road improvements. He is progressing favorably.

While shingling a barn on the West Seaside Road, Leslie Swales fell to the ground and was badly cut and bruised. Pat Hole, while playing in the school playground this week had his collar bone fractured. He was taken to the Health Centre, where his injuries were attended to.

Mrs. Albert Allison, Old West Road,

returned on Monday from Vancouver, where she attended the annual branch meeting of the Women's Missionary Society of the United Church.

Installment Plan For Fines Debated

Ottawa, May 16.—A bill sponsored by Senator C. P. Beaubien, Conservative, Quebec, to amend the Criminal Code so as to provide that fines may be paid on the installment plan, was given third reading in the Senate yesterday. The senator pointed out 220,000 people had been convicted and sentenced to fines last year in Canada. Of these 40,500 had paid and the remainder had gone to jail. He thought it unfair to brand as jailbirds many who were unable to pay their fines.

STOPPED HIS STOMACH TROUBLE

"Fruit-a-tives" Made Him Entirely Well

MR. R. A. BOVAY.

"I wish I could tell every sufferer in the world what 'Fruit-a-tives' has done for me," writes Mr. Roy A. Bovay, Trenton, Ont. "For years I was troubled by Bad Headaches, Nervous Dyspepsia and Liver Trouble. Then I commenced taking 'Fruit-a-tives.' Very soon my condition improved, and now, thanks to this wonderful medicine, I am once more entirely well."

"Fruit-a-tives" regulates stomach, liver, kidneys, bowels and skin—purifies the blood—and tones up the whole system. 25c and 50c a box—at dealers everywhere. (Adv.)

TRAIN ENGINEER ON TRIAL BEFORE JURY IN ONTARIO

Parry Sound, Ont., May 16.—Worried by trouble in his engine which he was struggling to correct, G. V. Alexander, engineer of Canadian National Railway train No. 3, which crashed head on with deadly consequences into another train at Drocourt, Northwest of here, March 20, forgot the order he had received an hour earlier to stop and take the siding. He told this to Mr. Justice Raney and a jury in giving evidence yesterday in his own defence at his trial on charges of manslaughter and criminal negligence resulting in grievous bodily harm. Alexander said he saw the mile post at Drocourt and blew his whistle, knowing he was coming to Drocourt Station. He also saw the light at either end of the switch. He did not, however, he said, receive the customary warning signal of two blasts on the air whistle from the conductor.

"Why did you not stop?" asked Prosecutor W. L. Haight in cross-examination.

"I was busy with the engine and worrying over its condition. I did not get the conductor's signal. It slipped my mind," he replied.

A short time before, Dr. M. H. Lambert who assisted the wounded at the wreck, told of a conversation with the engineer in which the latter had said: "I forgot my meet."

The trial continued to-day.
